Note: For data comparability and coverage, see the technical notes. Figures in italics are estimates or refer to years other than those specified.

... Data not available

- Zero or quantity less than the unit shown.

Source: ITU World Telecommunication/ICT Indicators Database.

(1) ITU estimate. (2) Includes ADSL connections at 128kbps. (3) Data represents one major service provider (4) Estimate. (5) Calculated based on % of Internet users as reported in surveys (6) total broadband internet subscriptions (7) Not from official survey data. Country estimate based on the assumption that every connection (except leased lines) serves 4 users (average household size is 6) and a leased line serves 10 users. Mobile Internet users are not included.
