(1) Decrease due to economic down turn. (2) Estimated based on 3 times the number of subscribers. (3) Incl. users of the international network and also those having access only to the Cuban network. Users of international network account only for 2.9%. (4) El número de usuarios de Internet en la República Dominicana se calcula aplicando un factor de 3.9 a las cuentas de Internet residencial y un factor de 16 a las cuentas de Internet de negocios o corporativas. Esto responde a encuestas realizadas por la Oficina Nacional de Estadísticas (ONE) que indican que 3.9 es el promedio de habitantes por hogar y 16 es el número promedio de empleados en una empresa. (5) Not from official survey data. Country estimate based on the assumption that every connection (except leased lines) serves 4 users (average household size is 6) and a leased line serves 10 users. Mobile Internet users are not included. (6) Only for those providers certified by the local compliance office. Does not include independent ISP's. (7) Only for those providers certified by the local compliance office. Does not include independent ISP's. Source: Junta Reglamentadora de Telecomunicaciones. (8) Refers to data collected at the end of Jan 2010 (9) No differentiation between active and non-active subscriptions. (10) Calculated based on % of Internet users as reported in surveys (11) End of March 2009.
