

ITU-D Study Groups – Case Study Library

ITU-D STUDY GROUPS: CASE STUDY LIBRARY

2

- Purpose: Repository which allows ITU members to **submit, store** and **consult** case studies on topics under study in ITU-D Study Groups.
- Value:
 - Effective sharing of information on **progress achieved** in your country on specific topics: lessons learned, strategies developed, approaches and technologies used, and how they have been **applied** in different environments.
 - Powerful search and filter tools to easily **find the information** you are looking for based on topic, geographical area, partners, funding, etc., for further analysis.
- How to share your case study:
 - Organize your case study.
 - Fill in the online form, including contact details, and attach relevant interesting material.
 - Click on submit.
 - You are done!
