3. A PRIVILEGED LOCATION

With over one million inhabitants, Campinas is the largest city in Brazil, excluding state capitals' metropolitan regions. It is located in the heart of São Paulo, the most populous, wealthy and industrialized state. It is situated close to both the financial hub of Brazil - the São Paulo state capital, 96 km away - and the port of Santos (172 km), the largest in Latin America. Campinas is the core city of a metropolitan region comprising 19 municipalities and numbering more than 2.6 million inhabitants. It is home to some of the largest companies established in Brazil. And the Campinas Metropolitan Region (RMC) generates approximately 3% of Brazilian GDP. More than 30 million people, equivalent to the population of Canada or twice that of Chile, live within a 200 km radius.

Other factors help to make Campinas such a special place. It is a technological center that the United Nations has described as the second most important in the Southern Hemisphere - the first being São Paulo itself. More than 400 of the 500 largest companies in the world are present in Brazil, and over 50 have representation offices in the Campinas metropolitan region.

4. TRANSFERS AND TRANSPORTATION

Foreign visitors should enter Brazil through the international airport of Guarulhos, in Sao Paulo. From Guarulhos airport, there are two options to travel to Campinas:

1. Visitors can take a VB/Lira Bus from the airport straight to downtown Campinas – it's a trip of less than 100km and costs BRL 50 (USD 16). IBIS Hotel is in front of the bus stop and from the point where the bus stops to SONOTEL a taxi will cost around BRL 20 (USD 6). Bus schedule departing Guarulhos airport to Campinas on Sundays: 06:30, 07:30, 09:00, 10:30, 12:00, 14:00, 16:00, 17:30, 19:00, 20:30, 22:00, 00:15, 02:00 H. Buses depart from Terminal 2, Asa C.
2. Visitors can book a flight from Guarulhos airport in Sao Paulo to Viracopos airport in Campinas. From the airport to downtown a taxi will cost around BRL 90 (USD 28.00). There are no shuttles from the airport to the hotel.

Participants of the C&I training on Mobile Terminals will be met on Monday, June 27, and will have transportation hotel/CPqD/hotel provided by CPqD and shall be ready every day at the lobby of the hotel (if one of the two indicated above), at 7:30 AM. At the end of the day CPqD will drive all participants back to the hotel. This scheme will work for the whole period of training due to the high transportation costs in Campinas.

5. HEALTH CARE

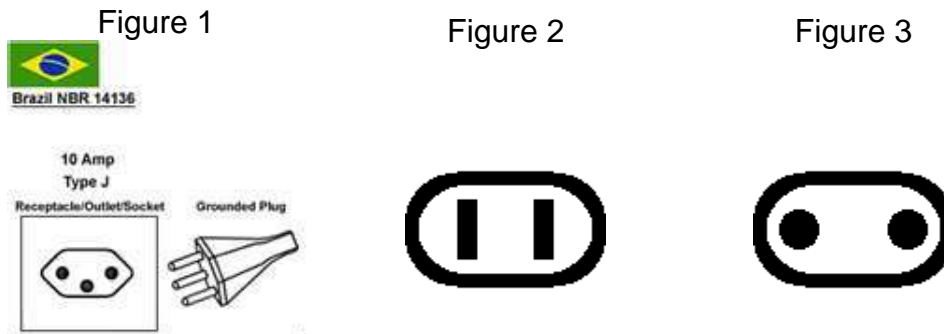

Participants are recommended to take yellow fever vaccine ten days prior to their travel, even though it is not required by the Brazilian immigration. Participants are also advised to hold an international insurance valid in Brazil for any emergency, although public hospitals and services are fair in Campinas.

6. CLIMATE

The temperature in Campinas in May/June varies during daytime from 18 to 22°C and in the evening time from 14 to 18°C.

7. ELECTRIC POWER

In Campinas, electricity is 110 Volts. Brazil has recently changed its outlets and the following electric plugs are mostly like to be found in hotels.

8. CURRENCY

Payments are made in local currency only. Banks are open from 10:00 a.m. to 4:00 p.m. on weekdays. We recommend visitors to exchange money upon arrival at the international airport of Guarulhos in Sao Paulo.

Credit cards (VISA, MasterCard, American Express and Diners Club) are generally accepted at hotels, department stores and restaurants.

Tipping is a common practice in bars and restaurants. A normal tip is 10% of the price on the bill. Sometimes the tip is already included in the bill.

9. TIME DIFFERENCE

Local time: GMT -03:00

10. VISA INFORMATION:

Depending on visitor's nationality, an entry-visa may be required by national authorities. Participants concerned are strongly advised to seek information on requirements applicable in their case from Brazilian embassies or consular missions in their home countries. Where a visa is required, applicants are strongly advised to apply as early as possible. For more information please visit:
