

ITU Regional Forum on ICT Measurement Dubai, 13-15 December 2016

Overview of ITU's work on ICT measurement

Susan Teltscher
Head a.i., ICT Data and Statistics Division
ITU/BDT

Role of statistics in ICT policy making

Why measuring?

National – regional – global levels

Importance of ICT statistics

3

National

- ❑ Overall monitoring of ICT developments
- ❑ Market analysis to inform regulatory/policy interventions
- ❑ Tracking of regulatory measures, e.g. licence obligations
- ❑ Monitoring of national ICT goals, e.g. broadband plans

International

- ❑ Benchmarking national vs. international ICT developments
- ❑ Monitoring global ICT development targets, e.g. Connect 2020 and Broadband Commission targets, WSIS+10, SDGs
- ❑ Informing private investors (e.g. to attract FDI), international cooperation programmes, donors, the media

ITU statistics

4

Collected from official sources

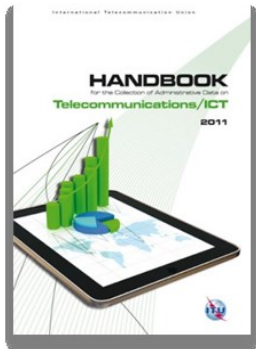

**Include all countries/economies
More than 100 indicators**

Data are harmonized and comparable

ITU is the main source for global ICT statistics

ITU: Source for global ICT statistics

- 50 years of data collection and dissemination
- Development of statistical standards
- Data analysis and flagship research reports
- Global forum for exchange (WTIS, Expert Groups)
- Capacity development
- WSIS and SDG monitoring

**PARTNERSHIP ON
MEASURING ICT
FOR DEVELOPMENT**

**ICT
FACTS AND
FIGURES
2016**

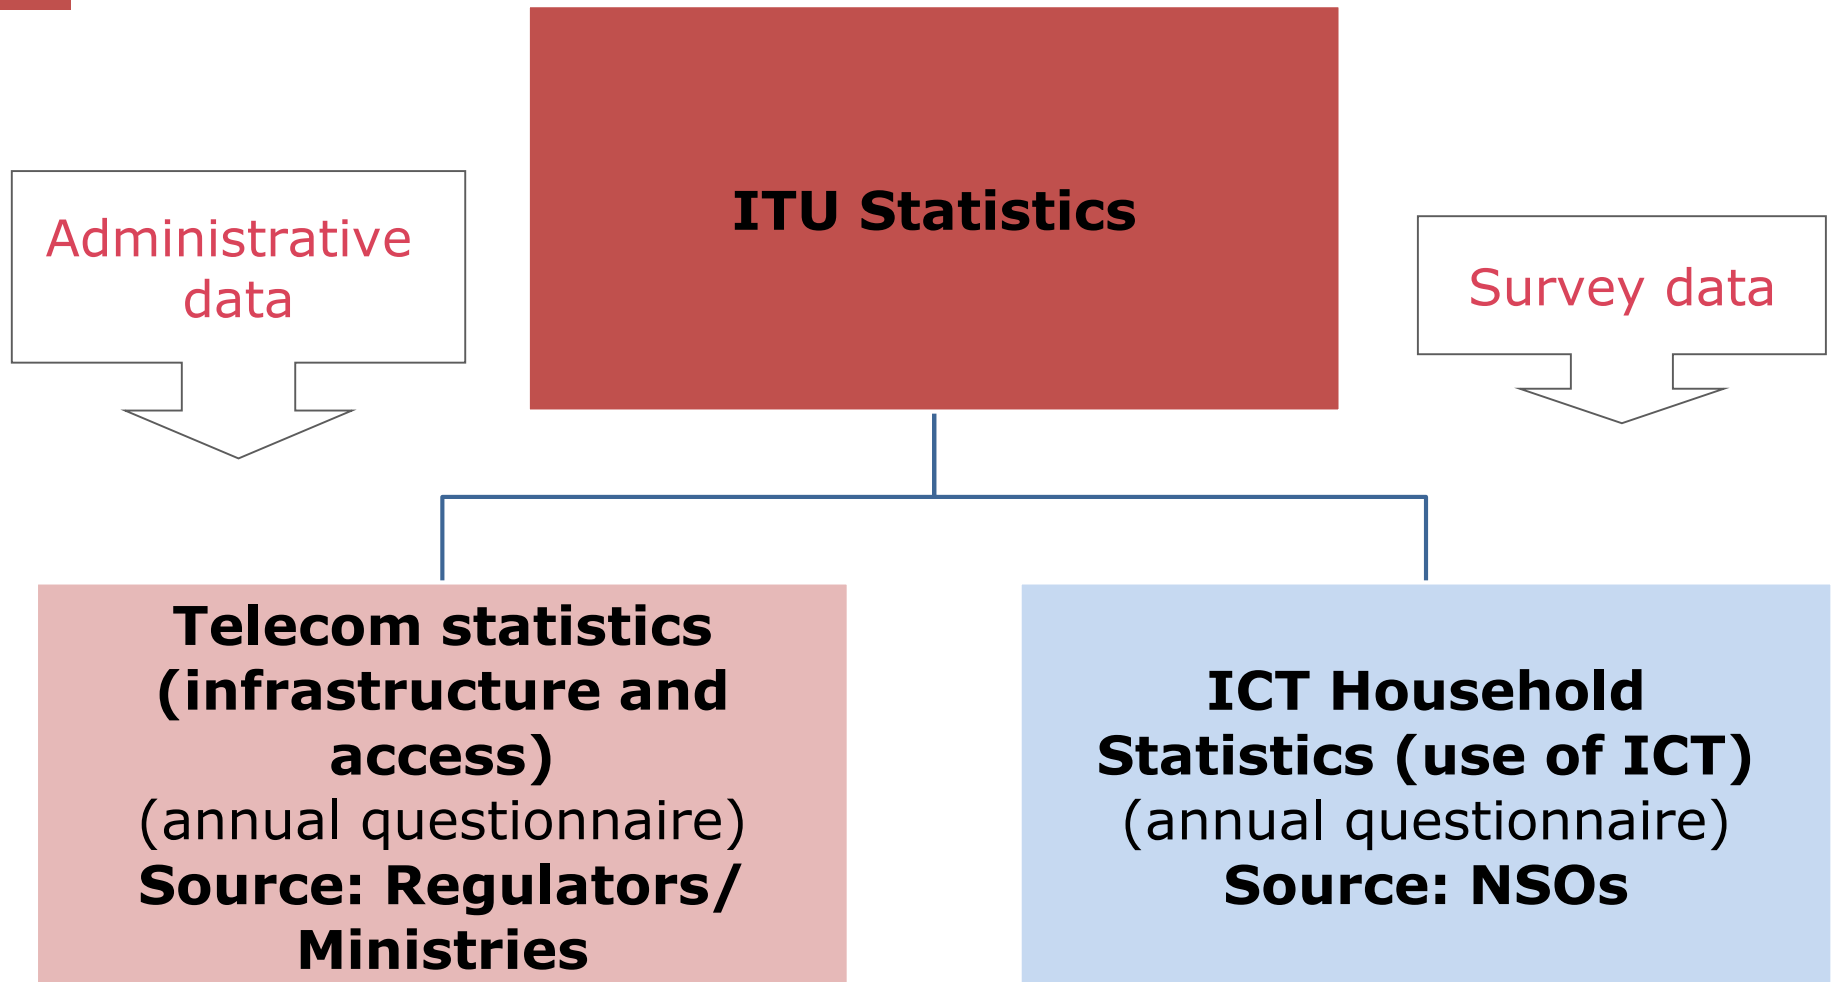

5

ITU Statistics cover two sets of official data

6

Data collection and dissemination

7

Collection of data

- Four annual questionnaires collecting more than 100 indicators
- Administrative data: ICT infrastructure, fixed/mobile telephony and broadband, TV, prices, traffic, investment, revenue
- Survey data: households with radio, TV, telephone, computer, Internet; individual usage of ICTs (by age, gender, level of education, urban/rural etc.)
- Sent to national ICT statistical focal points

Dissemination of data

- WTI Database (2 editions per year – June and December)
- Online: ICT Eye, ITU Statistics website, IDI visualization tool, Google PDE, UN Data portal
- Regional and global reports; ITU Yearbook of Statistics; Little Data Book on ICT
- ICT Facts and Figures
- Direct requests from users (more than 1000 per year)

Data collection and dissemination

Main annual schedule

8

When

- February
- March
- June
- Until mid September
- Until end October
- November
- December
- December

What

- WTI questionnaire (short)
- HH questionnaire (short)
- WTI Database
- WTI questionnaire (long)
- HH questionnaire (long)
- Price questionnaire
- WTI Database
- ITU Yearbook of Statistics

EGTI and EGH

Defining indicators and developing international standards

9

- Expert Group on Telecommunication/ICT Indicators (**EGTI**)
 - ▣ Since 2010
 - ▣ Around 700 members from 140 countries
- Expert Group on ICT Household Indicators (**EGH**)
 - ▣ Since 2012
 - ▣ Around 470 members from 125 countries
- Online discussion forum
- Face-to-face meeting
 - ▣ **4-7 October 2016, Geneva**
 - ▣ More than 100 participants from around 50 countries
- **Report to WTIS for adoption**

Measuring the Information Society Report

Main content – 8 editions

10

- Latest trends in ICT developments worldwide
 - ▣ Fixed, mobile, broadband, Internet, revenue, investment
 - ▣ Monitoring global goals (MDGs/SDGs, WSIS targets, Connect 2020)
- ICT Development Index (IDI)
 - ▣ IDI top performers and dynamic countries
 - ▣ Digital divide, regional analysis
- ICT prices and affordability
 - ▣ ICT Price Basket (IPB)
 - ▣ Prices of fixed and mobile voice and data
- Emerging trends
 - ▣ Big data, IoT, digital natives, gender, broadband, broadcasting

World Telecommunication/ICT Indicators Symposium (WTIS)

11

- Main global event to discuss emerging ICT trends and the role of measurement
- High-level segment bringing together leaders from Government, industry, academia
- Presentation and adoption of the work of EGTI and EGH
- Agreed outcomes and recommendations for future work on ICT statistics

Global goals and targets relevant to ICT monitoring

12

- WSIS goals and targets
- Connect 2020 goals and targets
- UN 2030 Agenda for Sustainable Development – SDGs and targets
- Broadband Commission targets

SDG indicator framework

169 targets

231 indicators
(7 ICT indicators)

International cooperation and partnerships

14

- International and regional organizations
 - ▣ Partnership on Measuring ICT for Development
- UN Statistical community
 - ▣ UN Inter-agency and Expert Group on SDG indicators (IAEG-SDG)
 - ▣ UN Global Working Group on Big Data for Official Statistics
- Private sector (big data)
- Broadband Commission for Digital Development

Partnership on Measuring ICT for Development
