

RATTANA JAROONSAKSIT
Director, Social Electronic Development and Promotion Section
Promotion and Development of Information and Communication Technology
Usage Bureau
Ministry of Information and Communication Technology

Ms. Rattana Jaroonsaksit graduated from Silapakorn University with Bachelor Degree of Arts in English and French. She started her government position as a foreign relation officer at the Ministry of Science Technology and Energy. After five years working as well as the trend of IT and Internet development, she had an opportunity to get a Royal Thai Government scholarship to continue her Master Degree in Management in Information Systems in Pennsylvania State University. After that she transfers to her new position as Computer Professional Officer. Her main skill is Database Management.

About seven years experiences in Ministry of Information & Communication Technology, She was assigned to be responsible for some tasks relevant to Electronic Transaction Law. One of her responsibilities is to promote security policy in Government Sector. Three main concerns of security protections are access control, Business Continuity plan, and Risk management. Her task is to support the Security subcommittee under Electronic Transaction Committee.

Recently she was assigned to take care of another responsibility. Her work is concerned with ICT development and Promotion. She is responsible for e-society development and promotion. Children and Youth are important parts of e-society in the future. So they should be smart and creative in Media Literacy.
