- Can create a website.
- Reason of using the Internet.
- ...etc..

e.oman

Challenges

- Internet connectivity
- Availability of Computers
- Coverage of the whole stakeholder
- Data of the private schools needs to be updated
- Updating the profile of the students

e.oman

Lessons Learnt

- **Globalization** and the increasing importance of knowledge in the development process
- **Affordability:** facing these new challenges will be costly. Thus, MENA countries will have to consider not only how education will be delivered but also how it will be paid for if they are to succeed.
- **Additional reoccurring issues across all Arab States including Oman were:**
 - The lack of Arabic content and opportunities for sharing them between countries
 - Teacher training and the incentives for change
 - Leadership in applying ICT in education
 - Research, monitoring and assessment of impacts, as to inform decision-making
 - Learning Management Systems as a source of relevant data if aggregated from individual schools to system level.

e.oman

Conclusion & Suggestions

- ICT skilled teaching + admin staff
- Mobile learning and using smart phones(applications)
- The ICT curriculums
- Measuring the impact of using ICT in education
- List of experts who will help in advising for the surveys

e.oman

Thank You
