

BR IFIC 2807 – NEWS

In order to provide administrations with more precise information and to facilitate the coordination process, the following changes to the symbols 11.41 and V/11.31.1 are effected starting from the current BR IFIC:

With respect to the notified frequency assignments for which the application of No. 11.41 has been requested, the symbols used for coordination and agreements status in Column A5/A6 will be expanded to include the provision under which a coordination agreement has not been obtained with the concerned Administration. Examples of the expanded symbols are: 11.41/9.7 , 11.41/9.13, etc.

With respect to the application of the procedure related to provision No. 9.21, in case the administration of the country designated by the symbol inserted in the "adm" column of the coordination table A5/A6 has formally objected to the proposed use, the symbol used for the favorable finding V/11.31.1 will now include the relevant information about objections with respect to GSO networks, Non-GSO networks or terrestrial stations like: V/11.31.1/A, V/11.31.1/B or V/11.31.1/C”
