

Data for Planned Space Networks (Appendices 30, 30A & 30B)

1. Data concerning the technical characteristics and reference situation for networks of the planned space services are currently included in the databases in the following directories:

- **\\databases\AP30_30A**: The Space Plans Systems (SPS) database* contains data for assignments in the Appendix **30/30A** Plans, Lists and those of pending Articles 2A & 4 networks and Resolution **49** information;
- **\\databases\AP30B**: The Appendix **30B** database* contains data for the allotments in the Plan, assignments in the List and those of pending Article 6 networks and Resolution **49** information;

These two databases are considered as an extension of the SNS version 9 database. In order to properly view/print the content of these databases, SpaceCap (v9.0.0 or later), SpacePub (v9.0.0 or later) or BRSIS-SpaceQry (v9.0 or later) software is required.

2. The MSPACEg output database and GIBC/PFD(terrestrial) technical examination results for each Appendix **30/30A** Article 4 Part A network published in this BR IFIC can be found in the **\\databases\AP30_30A\TEX_results** folder.

3. The GIBC/AP30B output database for each Appendix **30B** pending Article 6 network published in this BR IFIC can be found in the **\\databases\AP30B\TEX_results** folder. This database contains the detailed GIBC/AP30B calculation results.
