Space Services Department (SSD)

The Space Services Department (SSD) is responsible for coordination and recording procedures for space systems and earth stations. The Department handles capture, processing and publication of data and carries out examination of frequency assignment notices submitted by administrations for inclusion in the formal coordination procedures or recording in the Master International Frequency Register (MIFR). The Department is also responsible for managing the procedures for space related assignment or allotment plans of the ITU and for provision of assistance to administrations on all of the above issues.

Activities

- [ITU/IDA Workshop on the efficient use of the spectrum/orbit resource](#)
- [Spectrum/orbit workshop - Geneva 2009](#)
- [Res.647 \(WRC-07\) - Emergency and disaster relief radiocommunication](#)
- [ITU-R Circular Telegrams \(CTITU\)](#)
- [Res.609 \(rev. WRC-07\) - Consultation meeting](#)

Structure of the SSD

- # Space Publication and Registration Division (SPR)
- # Space Systems Coordination Division (SSC)
- # Space Notification and Plans Division (SNP)

Statistics

SNL PART A

Provide to users information:

- On the use of the frequency spectrum
- The occupancy of the geostationary orbits as well as on non-geostationary orbits
- General lists on PDF on the website and on the BRIFIC every 3 months

FREQUENCY USE - ORBIT OCCUPANCY (PART-A)

- List of space networks by frequency bands and orbital position

REPORTS

- Quarterly publication (download)
- ITU BR Annual Space Report on the use of the GSO and other orbits

REFERENCE PUBLICATIONS (PART-B)

- Query by general publication references
- Query by Special Section name
- Query by group of Special Sections
- Definition of the Special Sections : 

SATELLITE NETWORK INFORMATION

- Bringing into use
- Suspension
- Change of names
- Change of notifying administration

INFORMATION "AS RECEIVED" (PART-C)

- Coordination Requests
- Notifications of Space Stations
- Notifications of Earth Stations
- Article 4 of AP30/30A
- Article 2A of AP30/30A
- Articles 6 and 7 of AP30B

BSS - RR 23.13 AND RES 553

- BSS service area exclusion under RR 23.13 - Networks published in AP30/E Part A
- BSS service area exclusion under RR 23.13 - Networks published in CR/C
- BSS in 21.4 - 22 GHz (WRC-12)

SNL PART A - QUERY

Query by:

- Plan / Non-planned services
- Frequency bands
- Orbital position
- Submission reason (API, Coordination, Notification)

LIST OF SPACE NETWORKS/EARTH STATIONS (BY FREQUENCY AND ORBITAL POSITION)

Enter data and select emission/reception and station type

Non-Planned Services Planned Services/SOF

Frequency [MHz]: from to
Emission/Reception: Emission Reception All
Longitude: from to
Space or Earth: Geostationary Non-geostationary Earth station
Submission reason: API Coordination Notification All

Space Network Systems Online

Welcome to Space Network Systems Online!

SNS Online gives access to the **Space Networks Systems Database** of the Radicomunication Bureau of the ITU. The database contains AP4 data of more than 10600 geostationary satellite filings, 1070 non-geostationary satellite filings and 7900 earth station filings.

SNS Online is a yearly [subscription service](#). It is available as a free service for [TIES registered users](#).

Note: SNS Online will only be available 48 hours after registering for TIES.

Try the [demo pages](#) and if you are not a TIES registered user [subscribe](#) to the service.

View the description of the SNS database

view the description of structural changes to the SNS database (in INGRES and MS/ACCESS)

Navigate through the database using predefined queries to retrieve a list of satellites or earth stations. Select a specific satellite or earth station and view all the beams/antennas, frequencies, emissions, coordination information of the selected station.

allows you to navigate through the SNS database (planned services) and retrieve a list of satellites in the planned services. View the emissions, coordination information of the selected station.

Displays entries in the SNS database which have been suppressed. Use the query in case you want to retrieve a list of suppressed satellites or earth stations.

Retrieve advance publication data from the database. Based on your input parameters retrieve a list of satellites and get the summary information of your selection.

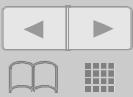

Retrieves the AP4 data from the SNS database and provides summary information of your selection.

- In SpaceCap, using the RES49 wizard
- A RES49 filing will be created on the local PC

SNS – CREATION OF A RES49 FILING 5/5

- Complete the different fields
- Select the frequency ranges for which you wish to submit the RES49
- The created RES49 filing can be sent to the Bureau

Resolution 49 Wizard V6 - Introduction

The Resolution 49 Wizard will help you prepare an electronic submission of Resolution 49 information for the selected network.

Resolution 49 Wizard V6 - SpaceCraft Manufacturer

Enter the Spacecraft Manufacturer information

BR41 Commercial Name of the Satellite:

Spacecraft Manufacturer:

BR30 Name of the Spacecraft Manufacturer:

Resolution 49 Wizard V6 - Launch Services Provider

Enter the Launch Services Provider information

Launch Services Provider:

BR34 Name of the Launch Vehicle Provider:

BR36 Date of Execution of the Contract:

BR38 Name of the Launch Facility:

BR39 Country/Location: Longitude: Degrees:

Note: You can use SpaceCap to add or remove frequency ranges.

Resolution 49 Wizard V6 - Frequency Ranges Subject to Resolution 49

Frequency Range - RS49 not Submitted	Date Inuse	Date Protection Ef
01805.76000 to 01809.76000	25.06.2010	19.01.2011
01821.78000 to 01825.78000		
07250.00000 to 07750.00000		
07900.00000 to 08400.00000		
20200.00000 to 21200.00000		
30000.00000 to 31000.00000		

Select all Frequency Ranges for which you wish to submit Administrative Due Diligence (Resolution 49).

Note: In case of frequency bands used by a Space Operation Service. If the Space Operation uses its own frequency allocation, Due Diligence is not required.

Warning! The frequency ranges subject to Res49 which are not submitted for Res49 will be deleted from the corresponding notice when the Date of Bringing into Use has passed.
