## Request for coordination for NGSO satellite network - SE-6-HEO-1A

### Reference:

1. *Submission of modification to API for SE-6-LEO API/A/9958 – BRIFIC 2793, our letter ref. 1406006-44, dated 2<sup>nd</sup> of August 2016*

Dear Sirs,

The Norwegian Communications Authority has today sent by e-mail to [brmail@itu.int](mailto:brmail@itu.int), the required information for the Request for Coordination for a new Norwegian NGSO satellite network named SE-6-HEO-1A.

Associated API is API/A/9958 (SE-6-LEO). The network is being renamed to SE-6-HEO-1A (Reference 1.)

We note that the Validation for this notice results in 1896 fatal errors. However, these all relate to a missing value for modulation type which is explained in Attachment 2 that is zipped and attached to the e-mail.

This letter is to be considered as the confirmation of the information in the said e-mail as required by the Radio Regulations.

Electronically approved.  
No signature required

With regards

Bent Andre Støyva (p.p.)  
Head of Section

Hæge Andersen
