Introduction

- The BR International Frequency Information Circular (Space services)

- Prior to 2000, special sections and Parts, distributed in WICs, were published on paper and microfiche, until RESOLUTION 30 (WRC-97) instructs BR to initiate the introduction of a CD-ROM format for the publication of the Weekly Circular
- In Circular Letter CR/134 dated 22 December 1999, the Bureau informed administrations of the development of a new CD-ROM publication, the BR International Frequency Information Circular BR IFIC (Space services) as of BR IFIC 2410/11.01.2000
- This new publication, developed by the Bureau pursuant to Resolution 30 (WRC-97) (which has been deleted by WRC-2000), replaced the previous publication of the Weekly Information Circulars (WICs) and special sections on paper and microfiche.
- Due to the substantial increase of the volume of information to be published, the technological progress and software evolution and to provide more relevant and useful information to administrations, the Bureau has changed the format of the BR IFIC (space services) from CD-ROM to DVD-ROM as of BR IFIC 2710/10.01.2012

BR IFIC Description / 1

- The BR International Frequency Information Circular (Space services) (BR IFIC) is a service document in DVD-ROM format, published once every two weeks by the Bureau in accordance with provision **Nos. 20.2 to 20.6 and No. 20.15** of the Radio Regulations (RR)
- As from BR IFIC 2410 of 11 January 2010, the BR IFIC (Space services) represents the sole publication format for Space services, for submissions under the relevant provisions and Resolutions of the Radio Regulations including Articles 9 and 11, and Appendices 30, 30A and 30B of the Radio Regulations
- The BR IFIC represents an official acknowledgement of receipt, in terms of **No. 11.28 of the RR (PART I-S)**, as far as the frequency assignments to the Space services are concerned, as well as a statutory publication of the particulars of frequency assignments to the Space services which are recorded in the Master Register pursuant to the relevant provisions of the RR **(PART II-S)**, or returned to administrations as a result of unfavorable findings **(PART III-S)**

BR IFIC Description / 2

- BR IFIC DVD-ROM (Space services) include the following data files:
 - ificxxxx.mdb
 - SPS_ALL_xxxx.mdb together with examination results
 - 30B_xxxx.mdb together with examination results
 - SpaceCom draft data
- The complete Space Radiocommunication Stations (SRS) reference database and the complete graphical data (GIMS) related to satellite networks are now available on the new BR IFIC DVD-ROM (Space services).
 - NOTE - Users are no longer requested to make an incremental update of its “local” SRS and GIMS database using the ificxxx.mdb and gupdate.mdb
- The BR IFIC DVD-ROM (Space services) is also used to distribute software developed by the Bureau relating to the electronic notification and carrying out validation and technical examination, especially SpaceCap, SpaceVal, SpacePub, SpaceQry, SpaceCom, GIMS, Appendix 7, GIBC, SPS and SAM.

BR IFIC Main Features

- All publications are in 6 languages of the Union (originally from 10.01.2000 in English, French, Spanish and as of 01.01.2005 also in Arabic, Chinese and Russian language)
- Starting with BR IFIC 2548/12.07.2005, all BR IFIC publications (Parts and Special sections) contains a mark - ITU logo at the bottom right of each page - this mark shall identify an official ITU publication:

- **NOTE:**
The only official regulatory reference for coordination/ consultation between the administrations is the corresponding Part or Special section contained in PDF format in the BR IFIC DVD-ROM

Ific.mdb

- The ificxxx.mdb file (MS Access format), published on the BR IFIC, is located in the Databases\IFIC_data directory.

This file contains TSUM data of:

- Part-IS, Part-IIS and Part-IIIS;
- Special Sections:
 - API/A (as of IFIC 2464/05.03.2002)
 - CR/C (as of IFIC 2460/24.01.2002)
 - CR/F (as of 1.6.2012)
 - RES49 (as of IFIC 2553/20.09.2005)

Of satellite networks which are present in the Table Of Contents of the BR IFIC.

- The file is also available on the BR website
 - <http://www.itu.int/en/ITU-R/space/Pages/brificMain.aspx>

SRS Database

- The srs.mdb file (MS Access format) published on the BR IFICxxxx (Space services) DVD-ROM is located in the Databases\SRS_Data directory
- This file contains complete alphanumeric information relating to satellite networks and Earth stations recorded in the Master International Frequency Register (MIFR) in accordance with Article 11 or in the process of coordination, in accordance with Section II of Article 9 or published under the advance publication of information procedure (API) in accordance with Section I of Article 9 of the RR as well as Administrative Due Diligence (Resolution 49)
- The information in the srs.mdb is a snapshot of the MIFR taken at the time the BR IFICxxxx DVD-ROM was produced
- The SRS database structure is described in detail in Section III, Chapter 1 of the Preface

GIMS Database

- The Bureau now publishes the complete GIMS reference database (REFDB) on each BR IFIC
- With the DVD-ROM (from 2013 onwards), the previous GIMS incremental update process is now obsolete
- GIMS users can choose whether to leave REFDB on the master folder, i.e. the DVD-ROM, or to work with a local copy on their PC
- REFDB Automatic Update
 - Every time GIMS needs to connect to a local REFDB copy it checks in the master folder to see if a newer version of REFDB is available.
 - If the master folder is not accessible, which can frequently happen when it is located on the BR IFIC DVD-ROM, the local copy is considered up to date. Otherwise GIMS compares the local and master copies to decide whether an update is required.

Space Plan Data

- Data for Planned Space Networks (Appendices 30, 30A & 30B)
- The technical characteristics and reference situation (EPM) for Planned networks can be found in the
 - `/data/SpacePlans/SPS/` directory for AP30&30A
 - `/data/SpacePlans/AP30B/` directory for AP30B
- The MSPACEg output database for each network can be found in the `/data/SpacePlans/MSPACEg_results/` directory. This database (MS-Access) contains the detailed results of MSPACE calculation.

List of information "as received"

- Resolution 55 (rev WRC-12) instructs the Radiocommunication Bureau
- to make available coordination requests and notifications, "as received", on its BR IFIC DVD-ROM, within 30 days of receipt, and also on its website - SNL Part C
 - <http://www.itu.int/ITU-R/space/snl/>
- Note: This advance version of the information received from the Administrations is not to be confused with the official publication of the relevant Part or Special section, which is yet to occur.

Space Networks List - SNL

Quarterly Report

- The Space Network List (SNL) is a list of basic information concerning planned or existing space stations, Earth stations and radio astronomy stations.
- On a quarterly basis, the complete Space Networks List (SNL) is annexed to the BR IFIC (Space Services) DVD-ROM.
- It contains 14 sections and has been prepared with a view to informing Administrations in a comprehensive manner of planned or existing space stations and Earth stations giving
- information on the use of the frequency spectrum;
- the occupancy of the geostationary orbit, as well as;
- on non-geostationary orbits.
- To facilitate further technical analysis, each Section is also provided as a delimited text file (*.CSV)
- SNL online <http://www.itu.int/ITU-R/space/snl/>

BR IFIC (Space Services) – BRsoft

- SAM - PC-based software package used to launch ITU-BR Space Software Applications;
- SpaceQry, which can be used to query into the database and retrieve and view the alphanumeric data;
- SpaceCap, which allows the capture and electronic notification of Appendix 4 notices;
- SpacePub, an interactive tool to print satellite networks and earth stations;
- SpaceVal, which can be used for validating electronic notices that are in the SNS electronic notice format;
- SpaceRefdb, an update tool that will update the reference tables used by BR software;
- SpaceCom, management of the comments on API/A (not subject of Coordination procedure), CR/C, AP30/E, AP30A/E, AP30-30A/F/C Special Sections;
- SRSSConvert, to convert the data contained in an existing SRS-formatted database from a version 5 database (WRC-03) into a version 6 database (WRC-07);
- GIMS, allows the capture and modification of graphical data relating to the electronic notification of satellite networks;
- IDWM, the ITU Digitized World Map;
- SPS, determination of the coordination requirements for the Plans for space networks in AP 30, 30A and 30B;
- SRSFixdb, to remove processing data and correct default information in electronic notification databases that are sent to the BR.
- GIBC, which provides the user with the ability to carry out calculations on satellite networks relating to PFD examinations, Appendix 7 and 8 and Appendix 30B
- Appendix 7 Capture, which assists in capturing the input data for the Appendix 7 software (see GIBC)

Annual BR WIC and BR IFIC (Space services) Collection on DVD

- ALL reference Special Sections and PARTs related to Space services in PDF format as of WIC 639/16.02.1965 (SAT 1 Special section)
- It contains PART I-S published from the year 2000
- It contains all PART II-S and PART III-S published from the year 1993
- It contains CR/C publication with the TSUM accessible by a link in the bookmark of the corresponding publication

Annual BR WIC and BR IFIC (Space services) on DVD-ROM

- From year 2005 this DVD-ROM is issued once a year (next one in March 2014)
- New features
 - 6 Language option (E/F/S/A/C/R)
- Quarterly update of the Annual publication database (SNL Quarterly Report - Part B)
- For more information see: CR/235
- Sales info - Publication notice 373
- The complete collection 1965 to 2007 – 5 082 CHF
- Annual collection – 500 CHF
- <http://www.itu.int/pub/R-SP-LN.IW-2012>

BRIFIC (Space Services) for download from the web – ISO image

- From 2014, BR offers *a secure web based distribution* of the BR IFIC (Space services) in a compressed ISO image file format.
- Provides access to the BR IFIC (Space services) publications and data after download, without any delay, on the BR IFIC publication date and offers a secure local reproduction of the BR IFIC (Space services) DVD-ROM
- ISO image will be the exact copy of the BR IFIC (Space services) on DVD-ROM
- a SHA-1 checksum file will also be posted to provide to all users an unambiguous verification that the downloaded BR IFIC (Space services)
- This is a complementary service to the current publication and distribution of the BR IFIC (Space services) on DVD-ROM (Publication Notice No. **283-13**, edition 2014).

What to do with the BR IFIC DVD?

What to do on issue of a BR IFIC?

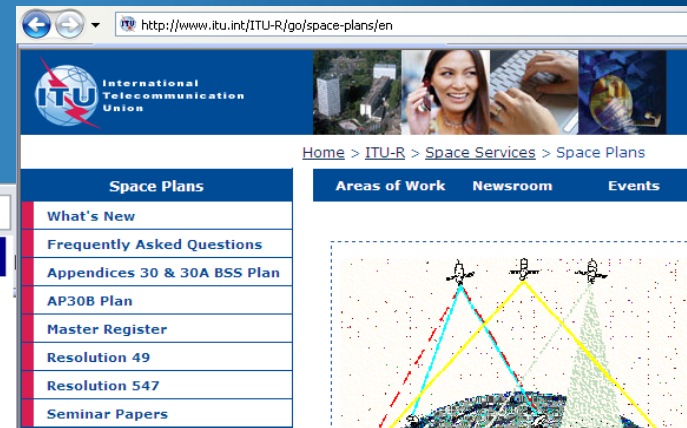

How to see details on publications when my Administration is concerned?

- Is my Administration identified as affected by the Bureau's examination in publications?
- Are my Administration's networks published?
- Are my Administration's new submission published "As received"?

Getting the new documents and data published

Resolution 55 (Rev. WRC-07)

instructs the Radiocommunication Bureau

to make available coordination requests and notifications referred to in *resolves* 1, “as received”, on its BR International Frequency Information Circular CD-ROM, within 30 days of receipt, and also on its website;

Recommended actions:

For **NOTIF ADM** → is my submission received?

For **AFFECTED ADM** → taking note of new submissions

The screenshot shows the BR IFIC website interface. On the left is a vertical navigation menu with buttons for: BR IFIC Publications, Databases, As received (Res.55) (highlighted), Preface, Cost Recovery, BR Software, and BR Circular Letters. The main content area has a sub-menu with buttons for: As received (Res.55) (highlighted), Coordination requests, Notification of space stations, Space Plans AP30B (highlighted), and Information. Below this is a section titled "NOTICES RECENTLY RECEIVED UNDER ARTICLES 6 AND 7 OF AP30B" containing a table with the following data:

Caractéristiques des assignations de fréquence publiées en application de l'Article 4 de l'Appendice 30 du Règlement des radiocommunications. La présente Section spéciale concerne des propositions d'assignations nouvelles ou modifiées dans la Liste des liaisons descendantes pour les Régions 1 et 3 dans les bandes de fréquences 11,7-12,5 GHz en Région 1 et/ou 11,7-12,2 GHz en Région 3. Elle comprend les Parties indiquées ci-dessous par une croix (X) dans la case appropriée.

Characteristics of frequency assignments published in application of Article 4 of Appendix 30 to the Radio Regulations. This Special Section concerns proposed new or modified assignments in the Regions 1 and 3 downlink List in the frequency bands 11.7-12.5 GHz in Region 1 and/or 11.7-12.2 GHz in Region 3. It is composed of the Parts indicated below by an (X) in the relevant box.

Características de asignaciones de frecuencias publicadas conforme al Artículo 4 del Apéndice 30 del Reglamento de Radiocomunicaciones. Esta Sección Especial trata de las asignaciones propuestas nuevas o modificadas en la Lista de enlaces descendentes de las Regiones 1 y 3 en las Bandas de frecuencias 11,7-12,5 GHz en la Región 1 y/o 11,7-12,2 GHz en la Región 3. Se compone de las Partes indicadas a continuación con una (X) en la casilla pertinente.

Partie A - Projets d'assignations nouvelles ou modifiées dans la Liste pour les Régions 1 et 3.
 Partie B - Assignations nouvelles ou modifiées ajoutées à la Liste pour les Régions 1 et 3 en conséquence de l'application avec succès des dispositions de l'Article 4 de l'Appendice 30 ou réseaux de la Liste pour les Régions 1 et 3 optimisés ou fusionnés conformément à la Résolution 548.

Part A - Proposed new or modified assignments in the Regions 1 and 3 List.
 Part B - New or modified assignments entered in the Regions 1 and 3 List as a result of the successful application of the provisions of Article 4 of Appendix 30 or networks in the Regions 1 and 3 List optimized or merged in accordance with Resolution 548.

Parte A - Asignaciones propuestas nuevas o modificadas en la Lista de las Regiones 1 y 3.
 Parte B - Asignaciones nuevas o modificadas introducidas en la Lista de las Regiones 1 y 3 como resultado de la aplicación exitosa de las disposiciones del Artículo 4 del Apéndice 30 o redes de la Lista optimizadas o refundidas de las Regiones 1 y 3, conforme a la Resolución 548.

Recommended actions:

For **NOTIF ADM** → checking TSUM, findings, exam results, BR Notes...

For **AFFECTED ADM** → is my Adm identified as affected?

What to do on i

Access to the BR Space IFIC Database Archive

The folder, *Databases\IFIC_Archive*, found on this DVD, contains an archive of all IFIC $nnnn$ databases for the current year up to the IFIC number of this DVD-ROM. The database files are in a compressed (PKZip) format, and will appear in the form IFIC $nnnn$.zip, where $nnnn$ represents the number of the associated Space IFIC publication.

These files are accessible using MS-Windows Explorer (or your favorite file managing software), and can be decompressed by right-clicking on the file and selecting the preferred export option from the drop-down menu.

SRS MDB

NOTE:

- 1 The **srs.mdb** file (MS Access format) published on the present BR IFICxxxx DVD-ROM is located in the Databases\SRS_Data directory. This file contains alphanumeric information relating to satellite networks and Earth stations recorded in the Master International Frequency Register (MIFR) or in the process of coordination, in accordance with Section II of Article 9 (Sections II (RR1060) and III (RR1107) of Article 11) of the Radio Regulations or published under the advance publication of information procedure, in accordance with Section I of Article 9 (Section I (RR1042) of Article 11) and maintained by BR.
- 2 The information in the **srs.mdb** is a snapshot of the Mater International Frequency taken at the time the present BR IFICxxxx DVD-ROM was produced.
- 3 The SNS database structure is described in detail in Section III, Chapter 1 of the Preface.
- 4 In order to properly view and query the **srs.mdb** file directly from this DVD-ROM using either SpaceQry, SpaceCap or SpacePub you should first install them from the \BR_Soft\ folder also located on this DVD-ROM. The minimum software configuration: MS-Windows NT V4.0 or MS-Windows 95.

Data for Planned Space Networks (Appendices 30, 30A & 30B)

1. Data concerning the technical characteristics and reference situation for networks of the planned space services are currently included in the databases in the following directories:

- **\databases\SpacePlans\SPS**: The Space Plans Systems (SPS) database* contains data for assignments in the AP30/30A Plans, Lists and those of pending Article 2A & 4 networks and Resolution 49 information;
- **\databases\SpacePlans\AP30B**: The Appendix 30B database* contains data for the allotments in the Plan, assignments in the List and those of pending Article 6 networks and Resolution 49 information;

These two databases are considered as an extension of the SNS version 6.1 database. In order to properly view/print the content of these databases, SpaceCap (v6.5.2 or later), SpacePub (v6.0.4 or later) or SpaceQry (v6.2 or later) software is required.

2. The MSPACEg output database for each AP30/30A Article 4 Part A network published in this BR IFIC can be found in the **\databases\SpacePlans\MSPACEg_results** folder. This database contains the detailed MSPACEg calculation results.
3. The GIBC output database for each Appendix 30B pending Article 6 network published in this BR IFIC can be found in the **\databases\SpacePlans\AP30B\GIBC_results** folder. This database contains the detailed GIBC calculation results.

PREFACE

**TO THE BR INTERNATIONAL FREQUENCY INFORMATION CIRCULAR
BR IFIC (Space Services)**

The Preface (Space services)

- ***Contains 4 Sections***
 - **Section I - General**
 - **Section II - Description of the BR IFIC and the Space Radiocommunication Stations (SRS)**
 - **Section III - Description of the Space Networks System (SNS)**
 - **Section IV - Reference Tables**

The Preface (Space services)

SECTION II - Description of the BR IFIC and the Space Radiocommunication Stations (SRS) on DVD

- Chapter 1 - BR IFIC (Space Services)
 - Definition of the BR IFIC
 - Part I-S, Part II-S and Part III-S
 - Appendix and Annex to the BR IFIC
 - The Special Sections - **currently in use**
 - The Special Sections – discontinued

- Chapter 2 - Cover pages of the Part I-S, II-S, III-S and the Special Sections currently in use

- Chapter 3 – SRS description

The Preface (Space services)

SECTION III - Space Networks System (SNS)

- Chapter 1 - Details relating to the contents of the SNS data items published in Part I-S, II-S, III-S and the Special Sections of the BR IFIC

SECTION IV - Reference Tables

- Table 1A - Codes Designating Notifying Administrations
- Table 1B - Codes Designating Countries or Geographical Areas
- Table 2 - Intergovernmental satellite organizations
- Table 3 - Class of Station (data item *C4a*)
- Table 4 - Nature of Service (data item *C4b*)
- Table 5 - Symbols used to indicate the polarization (data item *C6a*)
- Table 6 - Radio astronomy station antenna characteristics (data item *B6*)

The Preface (Space services)

SECTION IV - Reference Tables continues

- Table 7 - Antenna radiation reference pattern (data item *B3e/B4a/B4b* or *B5c2* or *C10c4a*)
- Tables 8 – 10 - **Numbers not used**
- Table 11A - Symbols used for coordination and agreement (data item *A5/A6*) (coordination phase)
- Table 11B - Symbols used for coordination and agreement (data item *A5/A6*) (notification phase)
- Table 12A/12B - Responsible administrations (data item *A3b*), operating agencies (data item *A3a*) and postal and telegraphic addresses of the administrations responsible for the stations

The Preface (Space services)

SECTION IV - Reference Tables continues

- Table 13A1 - Finding reference - Conformity with the Radio Regulations - symbols used in column *13A1*
- Table 13A2 - Finding reference - Conformity with the procedures relating to coordination with other administrations or conformity with a Plan (world or regional) - symbols used in column *13A2*
- Table 13A3 - Finding reference - Technical examination - symbols used in column *13A3*
- Table 13A4 - Finding reference - Conformity with RES-49 - symbols used in column *13A4*

The Preface (Space services)

SECTION IV - Reference Tables continues

- Table 13B1 Reference to a provision of the Radio Regulations or an Appendix thereto, or a Resolution of a World Radio Conference or a Regional Agreement - symbols used in column *13B1*
- Table 13B2 - Remarks concerning Findings - symbols used in column *13B2*
- Table 13B3 - Date relating to a review to be made - symbols used in column *13B3*
- Table 13C - Remarks - symbols used in column *13C*
