

**Mr Stephen Talbot**

**Head of International Spectrum Policy, OFCOM, United Kingdom**

Stephen is currently Head of International Spectrum Policy in the Strategy, International, Technology and Economists team of Ofcom (UK) and has been in that position for 2 years. He was the Head of Delegation to CPM15-2 and Deputy Head to WRC-15. Previous to working on international matters he worked in the team concerned with the UK spectrum award of the 10, 28, 32 and 40 GHz bands.

Stephen was the rapporteur, in ECC, for a piece of work that was collating general information on the regulatory framework for M2M communications. He is also currently one of the Vice Chairman of the ECC Working Group for Frequency Management (WG-FM).

Stephen holds an HNC in electronic and electrical engineering, and has been with Ofcom since its inception in December 2003. Previous to Ofcom, Stephen worked at the Radiocommunications Agency (the Government predecessor to Ofcom) in a number of posts; Radio Investigation and Monitoring, Satellite and Space Sciences and the International Regulation Team.
