

Mr. Allen Yang

Mr. Allen has been employed as an electronics engineer for the United States Government for over 20 years. His years at the Federal Communications Commission in Washington, District of Columbia, were dedicated towards advancing US interests internationally. He was a member of the US delegation to WRC 2007 and 2012 covering aspects of spectrum management. He is currently a Senior Electronics Engineer in the Commission's International Radiocommunication Branch and heads the US delegation in meetings for ITU-R Working Party 1B.
