

Biography

- After receiving his Bachelor Degree in Engineering from the University of Southern California (Los Angeles, USA) in 2004 , Naser Alrashedi joined the UAE Telecommunication Regulatory Authority, looking after the Regulatory and Policy Issues related to Media, Information and Communication Technologies at both National and International Levels.
- Between 2007-2013, Naser was elected to be the UAE Administration Official Representative at the ITU, in Geneva. He has actively contributed and participated in over 200 international conferences, meetings, and activities. He held several key leadership positions in number of regional and international meetings and groups. In several occasions he was selected as the Arab Regional Group Representative in important matters and issues in the area of ICT international policy during the last years.
- His area of specialty is ICT Negotiation and Policy Making (in particular for Security, International Telecommunications, Broadcasting, and Spectrum Management).
- During his Mission in Geneva, Mr. Al-Rashedi successfully obtained his Master Degree on International Negotiation and Policy Making from the Geneva Institute for Graduate Studies, where the topic of his thesis was “Towards Global Cybercrime Deterrence”.
- In September 2012, Naser joined the National Electronic Security Authority as a Manger of Cybersecurity National Policy & Planning. Since then has been involved in the development and implementation activities of several national cyebrsecurity policies, standards, and critical information infrastructure protection plans.
