

Joint ITU-R SG 6 – EBU Workshop “Broadcasting in times of crisis - 2023” Geneva, Switzerland, Thursday, 9 March 2023 from 1400 to 1700 hours (CET)

Zoom chat extract

15:33:57 From Veit Olischläger to Everyone:

DAB needs less power than FM (TX and RX):

15:34:15 From Veit Olischläger to Everyone:

https://www.worlddab.org/public_document/file/1460/Report_Green-Radio_BLM_BR_E_Web.pdf?1636114991

16:59:13 From Steve.Ripley to Everyone:

ITU-R SG6 Opinion 103 from 2017 is still very relevant with potential for emergency warnings. This could perhaps be extended to cover all the digital radio formats to get more of the multiple paths covered.

17:01:06 From Giacomo Mazzone to Everyone:

SUGGESTION: ask SG to liaise with WMO for the Early Warning System campaign, to include in it the last mile (till citizens) that is currently missing.

17:01:54 From Thomas Stockhammer to Everyone:

Broadcast is not competitive to Cellular, but complementary

17:04:47 From Veit Olischläger to Everyone:

yes!

17:07:02 From Giacomo Mazzone to Everyone:

SUGGESTION 2 : ask SG to exchange with CEN CENELEC on the just released draft: CEN/WS SMCD

Date: 2023-02-17

Secretariat: SIS

WI Number: WSSMC001

Guidelines for effective social media messages in crisis and disaster management

17:09:14 From Thomas Stockhammer to Everyone:

Since 2017, we have achieved that Commercial mobile devices can receive signals from HPHT broadcast infrastructure. This is very new and different

17:09:44 From Ronald Lorenz (MB) to Everyone:

no competition by systems - but messages should be same/similar, not (totally) different messages via different ways

17:10:00 From Ruxandra Obreja (DRM) to Everyone:

agree

17:10:17 From Giacomo Mazzone to Everyone:

best regards to all the friends I see in the room. To the next Giacomo
