

ITU RRS-13-Americas
Asunción, Paraguay; 8-12 July 2013

Participants Laptops: Set of minimal specifications

Given the amount of the expected practical training during the workshops, each participant is required to bring a laptop.

In order to appropriately run the ITU Software Tools during the workshops, laptops shall have the following set of minimal specifications:

Windows XP or VISTA		
minimum/recommended system requirements	32-bit OS	64-bit OS
Processor (CPU)	300 MHz	800 MHz
Memory (RAM)	128 MB	1 GB
Graphics	Super VGA (800 x 600)	

Windows 7		
minimum/recommended system requirements	32-bit OS	64-bit OS
Processor (CPU)	1 GHz	
Memory (RAM)	1 GB	2 GB
Graphics	128 MB	

- Available free disk space : at least 5 GB (recommended 10 GB)
- USB port and/or DVD Reader
- Wireless (WiFi)
- Software environment :
 - Microsoft Office 2003 (or higher) with: Word, Excel, PowerPoint
 - Explorer, Adobe Reader, Skype

Users must have the necessary permissions for installing new software (e.g., local administrator rights).

Please note the following about the ITU Software Tools:

- Might experience unexpected difficulties when running on Windows 8
- Could require configuring regional settings in English
