The SCV thanks RevCom for its liaison statement LS-2 on increasing efficiency of work in ITU-T.

The liaison statement was considered at the joint meeting of the Standardization Committee for Vocabulary and the Coordination Committee for Vocabulary held on 9 May 2016.

The SCV wishes to inform RevCom that the Chair of SCV will present to the July 2016 meeting of TSAG a proposal to convert SCV into an Intersector Rapporteur Group, on an interim basis, in order to set the framework that will later allow for the unification of ITU-T's SCV and ITU-R's CCV into a single group, pending the approval of the Radiocommunication Assembly in 2019. The 2018 ITU Plenipotentiary Conference may also provide further instructions to coordinate and integrate the work of the Vocabulary Committee with the Council Working Group on Languages.

Please send replies to this liaison statement to the secretariat at [tsbscv@itu.int](mailto:tsbscv@itu.int).
