In response to the liaison statement of ITU-T SG2, ITU-T SG3 is pleased to inform SG2 that it has taken note of the new activities concerning terms and definitions in SG2 Work programme Recommendations and on the encouragement to check possible overlapping. If so, SG3 will inform SG2 and SCV accordingly if any such issues are identified.

In order to allow for SCV to achieve harmonization among all concerned study groups, SG3 will send to SCV and concerned Study Groups, on a regular basis and when necessary, the terms and definitions that are being considered for incorporation in Recommendations and which may have implications on the work of other study groups or in other sectors of ITU.
