ITU-T SG15 thanks Standardization Committee for Vocabulary (SCV) and Coordination Committee for Vocabulary (CCV) for its liaison statement TD76-GEN-Ref.: [SCV - LS 13 -E](#).

The experts of ITU-T SG15 Working Party WP1/15 have reviewed your proposed definition for the term “broadband access” stated in TD76-GEN and concluded they disagree with this definition.

ITU-SG15 proposes:

**broadband access:** *Access in which the connection(s) capabilities support data rates significantly greater than the narrowband rate access.*

ITU-T SG15 looks forward to continuing its cooperation with Standardization Committee for Vocabulary (SCV) and Coordination Committee for Vocabulary (CCV).
