PRACTICES AT THE EXHIBITION SPACE**

WSIS FORUM 2018 PARTNERSHIP OPPORTUNITIES

The World Summit on the Information Society Forum 2018 is the largest annual get-together of the 'ICT for development' community. The WSIS Forum is co-organized by ITU, UNESCO, UNDP and UNCTAD, and with all WSIS Action Line Facilitators and Co-Facilitators.

Each year, the Forum provides structured opportunities to network, learn and participate in multistakeholder discussions and consultations on WSIS implementation. It also continues to provide a platform for stakeholders to develop partnerships for projects and initiatives that harness the potential of information and communication technologies for advancing and achieving the Sustainable Development Goals, the 2030 Agenda for Sustainable Development (UNGA Resolution A/70/1).

For additional information please visit the WSIS Forum website
www.wsis.org/forum

"The annual WSIS Forum has become a global multistakeholder platform for coordination of the implementation of the WSIS Outcomes, information exchange amongst the different WSIS Stakeholders, knowledge creation and the sharing of best practices. I would like to thank all Partners who have generously contributed towards enhancing the outcome and results of the WSIS Forum.

Beyond 2015, following the multi-stakeholder approach, the WSIS Forum, will build upon the outcomes of the WSIS+10 Review and the 2030 Agenda for Sustainable Development. In this regard the WSIS-SDG Matrix developed by UN WSIS Action line Facilitators will serve as the mechanism to map, analyse and coordinate the implementation of ICTs as enablers and accelerators of the SDGs".

With the goal to evolve and adapt to the future needs of the Information and Knowledge Societies and WSIS process beyond 2015, I invite all Stakeholders to Partner with the WSIS Forum 2018 and look forward to working together towards an impactful Forum."

Mr Houlin Zhao,
Secretary-General, ITU
