

ICT Discoveries publishes original research on telecommunication/ ICT technical developments and their policy and regulatory, economic, social and legal dimensions. It builds bridges between disciplines, connects theory with application, and stimulates international dialogue. This interdisciplinary approach reflects ITU's comprehensive field of interest and explores the convergence of telecommunication/ ICT with other disciplines. It also features review articles, best practice implementation tutorials and case studies.

Publication rights

ITU supports open access publishing. Published articles are digital, online and freely downloadable by the wider public with permitted reuse.

Published articles are available under the Creative Commons Attribution-NonCommercial-Non-derivatives 3.0 IGO license (CC BY-NC-ND 3.0 IGO: <https://creativecommons.org/licenses/by-nc-nd/3.0/igo/>). Under the terms of this license, you, the user, may copy and redistribute the work for non-commercial purposes, provided the work is appropriately cited, as indicated below. If you remix, transform or build upon the work, you may not distribute the modified material unless you receive permission from ITU, as indicated below. In any use of this work, there should be no suggestion that ITU endorses any specific organization, products or services. The unauthorized use of the ITU names or logo is not permitted. Any mediation relating to disputes arising under the license shall be conducted in accordance with the mediation rules of the World Intellectual Property Organization (<http://www.wipo.int/amc/en/mediation/rules>).
