PROPOSAL FOR THE WORK OF THE CONFERENCE

Agenda item 1.13.1 - proposed modification to Section VI of Article S22

1 Introduction

Annex 7 to Chapter 3 of the CPM Report provides three options for possible modification to Section VI of Article S22. Australia has considered all of these options and makes the following conclusions:

- Option 1 - This option will not provide protection from interference to the new non-GSO FSS networks from high e.i.r.p. GSO earth stations.
- Option 2 - This option establishes sharing criteria which limits off axis e.i.r.p. to facilitate sharing between non-GSO and GSO networks.
- Option 3 - This option would require incorporation by reference from a yet to be developed Recommendation, require action by a future conference and is therefore not viable.

2 Proposal

AUS/53/1

Australia proposes option 2 of Annex 7 of Chapter 3 of the CPM Report.
