**Subject :** Planning schedule for the fourth World Telecommunication Policy Forum (WTPF) on convergence and emerging policy issues

Dear Mr. Secretary General,

I would like to refer to your letter Ref. DM-07/1003 dated 9 March 2007 concerning the above-mentioned subject. With regard to the draft report of the Secretary General, Thailand would like to propose that the followings should be taken into account:

1. The identification of the type of convergence should also take telecommunication network, services, and terminal equipment into account.
2. The inclusion of key regulatory implication regarding the convergence of NGN and the Internet at service and network level.
3. Apart from the impact of convergence on telecommunications, the impact of convergence on the nature and mechanism for regulating NGN and the Internet should also be addressed.

On the issue of the informal group of experts, Thailand would not nominate expert for this group.

As for the voluntary contributions towards a Trust Fund, Thailand is still in the process of consideration. We will inform you of the outcome on this matter in due course.

With best regards,

Yours sincerely,

*Sue Lo-Utai*
