

ICT as an Enabler

of Socio-Economic Development

Tahir Hameed
Pakistan
thameed@icu.ac.kr

This talk covers...

1. Perspectives on ICT for Development
2. IT & Telecom Industry of Pakistan
3. e-Readiness
4. International Cooperation in ICT
5. Case Studies
5. Conclusion

Towards Information Society...

Source: Graphic on Internet Governance by Baldi, Gelbstein, Kurbalija, 2003
DiploFoundation (www.diplomacy.edu)

Why the digital divide is most hyped about?

- Contributes negatively to many other divides...
- Digital Opportunity/ICT is an enabler for all spheres of development...
 - More than computers and telephony
 - Roughly 6.6% of World's GDP.
 - Studies (ITU, WB and other) prove and suggest how ICT can help achieve the 18 targets set under the 8 MDGs.*

*Views referred from:

R. Tongia, E.Subrahmanian, V. Arunachalam, *Information and Communication Technology for Sustainable Development*, *Defining a global research agenda*, Bangalore, 2005, p.18-19

National Competitive Advantage today...

- No comparative labor advantage for developing countries any more.
 - “The competitive advantage that now counts is the application of knowledge.” ¹
- Global Positioning of the Economy will matter only
 - ICT therefore becomes a powerful catalyst, for comprehensive cross sector strategies to stimulate and facilitate a “*wider economic process, and enhance global positioning.*” ²

1. Drucker (1994)

2. ICT for Development, Poverty Reduction, Disaster Recovery, and Initiatives to Enhance Human Development by Denis Gilhooly Senior Adviser to the Administrator, Director ICT for Development, UNDP.

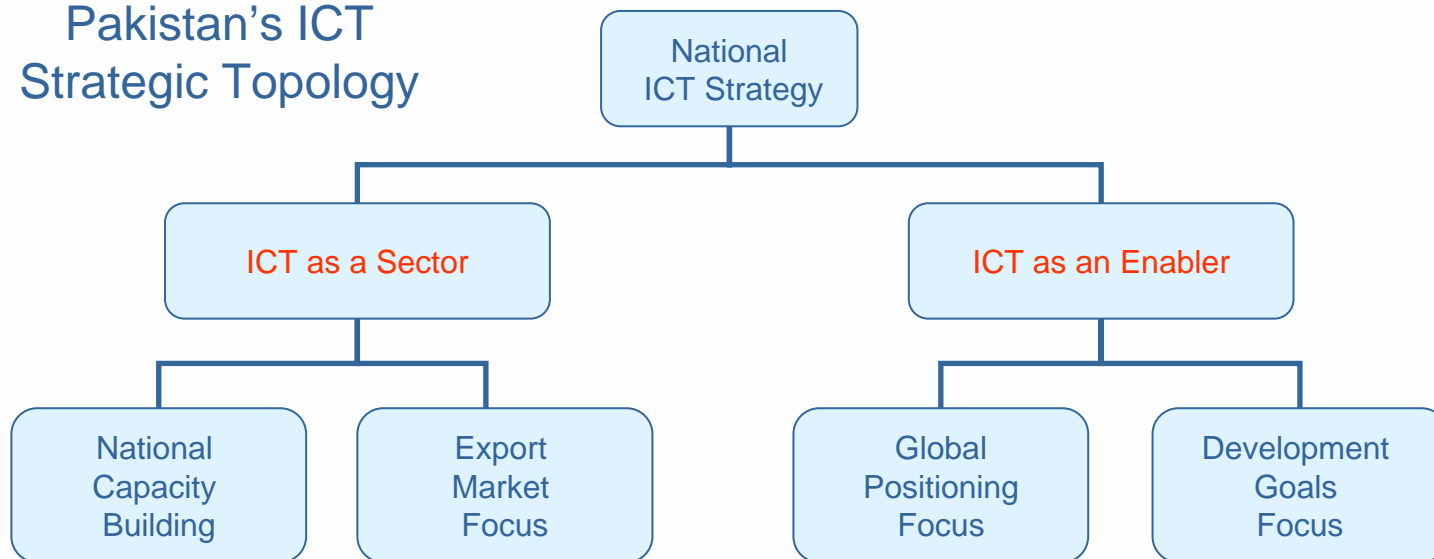

Many views; Two approaches..

- ICT Growth, ICT for Production Sector, Sector Approach, Short-Term,
- ICT Diffusion, ICT for Development, Integrated Approach, Long Term

Pakistan's ICT Strategic Topology

Source: Mujahid, Y.H, *Digital Opportunity Initiative for Pakistan*, The Electronic Journal on Information Systems in Developing Countries, EJISDC (2002) 8, 6, 1-14. Paper also available at <http://unpan1.un.org/intradoc/groups/public/documents/APCITY/UNPAN005832.pdf>

Conclusions about Development...

- an **integrated approach** to ICT development and deployment is most likely to yield success in human, social and economic development over the longer term. ¹
- to achieve IT induced development, developing countries will have to wait until they **cross** the hub of **per capita income growth** and **human development**. ²

1. Accenture, Markle Foundation and UNDP, *Creating a Development Dynamic, Final Report of the Digital Opportunities Initiative*, New York, 2001.

2. K.J. Joseph, *Growth of ICT and ICT for Development*, United Nations University, Discussion Paper No. 2002/78, August 2002

Pakistan

the land of pure

- Area: 803,940 sq. km
- Population: ~150 million
- Literacy: 42.7% (English Literacy ~ 20%)
- GDP Per Capita: US\$ 680
- GDP-Growth Rate: >6.3% (for last two years)
- Exports: 2004-05 US\$ \$14.4bn;
- Imports: 2004-05 US\$ \$20.6bn;
- Telecom Industry: US\$ 2 billion
- SW Exports: US\$ 48 million (2004-05 through SBP)

Map from CIA Fact Book

Compiled from Sources:

- Federal Bureau of Statistics, Government of Pakistan
- Pakistan Telecommunications Authority, www.pta.gov.pk
- Pakistan Software Export Board, www.pseb.org.pk

Most significant IT & Telecom Policies

- Pakistan Telecom Reorganization Act 1996
- IT Policy & Action Plan 2000
- De-Regulation Policy July 2003 (fixed and mobile)
- Mobile Cellular Phone Policy in January 2004
- Broadband Policy 2004 approved and issued
- Universal Service Fund (USF) in place

IT Industry

Number of IT companies working in Pakistan	700
IT and ITeS Exports during 2004-2005	US\$ 48.50 million (through SBP)
Percent growth in Exports	45% over Fiscal Year 2002-2003
Export target for the fiscal year 2005-2006	US\$ 72 million (through SBP)
Annual Software Industry Turnover	Around US\$ 70-80 million
Number of IT graduates produced per year	About 5,500
Number of Universities offering IT / CS programs	45
Number of IT professionals employed in the country	95,000
Annual IT Market size	> US\$ 800 million growth rate 30%

Telecom Industry

Sources:

Pakistan Telecommunications Authority, www.pta.gov.pk

Ministry of Information Technology, www.moit.gov.pk

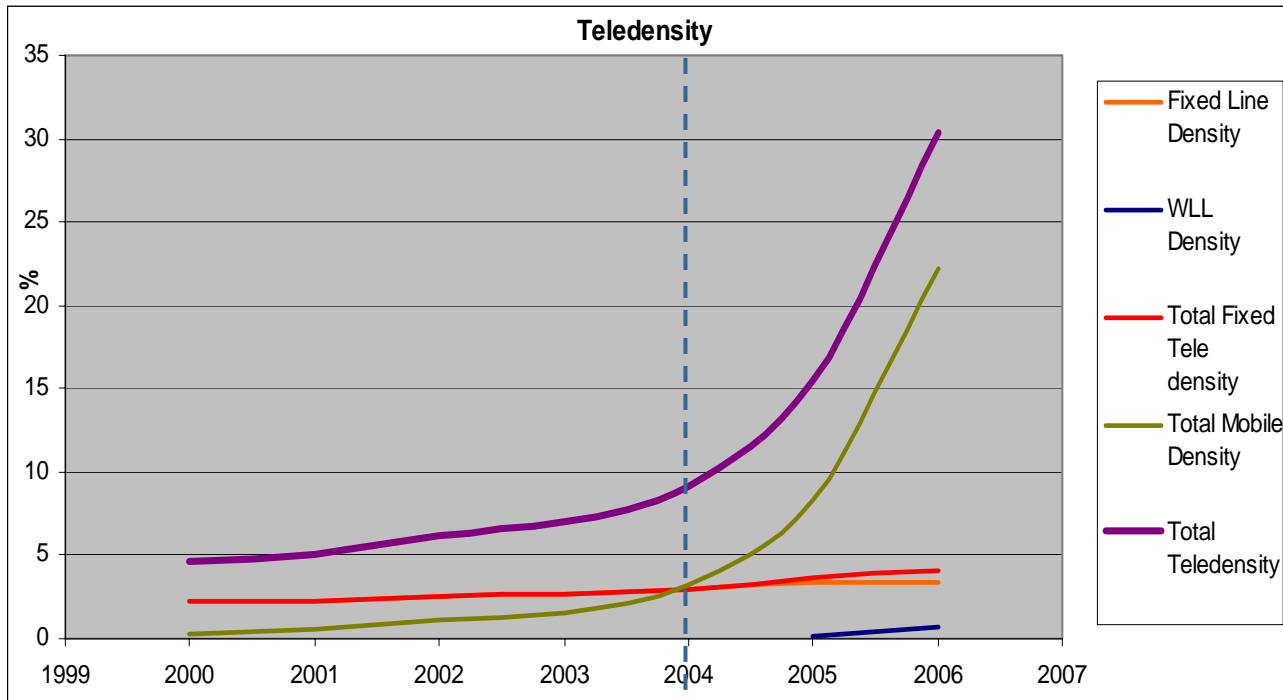

- One of the fastest growing telecom markets in Asia
- Incumbent state-owned PTCL privatized
- 6 Cellular Operators
- First phase of de-regulation completed
- **Mixed/Regulated Competition to Mature Competition between many players**
- 2G, 2.5 & some 3G services widely in use,
- 4G Wi-Max roll-out planned in Dec 2006
- **Total Tele-density near 30%**

Impact of Liberalization

reaching the grass roots...

e-Readiness

ITU's ICT Diffusion Index 1997-2004

Norway	1	2	4	6	9	13	14	14
Oman	102	103	110	112	98	100	100	107
Pakistan	152	152	153	154	163	163	165	165
Panama	95	95	91	91	84	87	88	91
Papua New Guinea	170	173	173	178	149	150	150	151

Universal Internet
Access Plan
2000+
towns connected

- DAI 2003 – Pakistan 0.24
- **Low Access**
- More than 10 million internet users
- **Current Status ?**

International Cooperation in ICT

- **Why is it important?**
 - Funds & financing, resources
 - Start higher on the learning curve; Avoid Pitfalls
 - Collaboration & knowledge retention
 - Better project ,management & tracking
- **Most common issues encountered:**
 - Conflicts on projects involving policy
 - Private sector sometimes want direct benefits
 - Lack of local expertise in project management
 - Lack of local research & content
 - Social & cultural settings

Pakistan: International Cooperation in ICT

1. Between Governments.
2. Donor Agencies and International Organizations:
 - UN: **SDNPK**, UNESCO, APDIP, UNCTAD
 - **USAID**, WB, APT, PAN< ITU
3. Country-Based Development Organizations:
 - **IDRC, Canada (PAN Projects)**
 - **KIPA, KADO, Korea**
 - **SDC/SWISS CONTACT, Switzerland:**
4. Private Sector Organizations or NGOs:
 - Development Gateway Foundation, **CISCO**, Oracle, IBM, **Microsoft**

Pakistan: Cooperation with Republic of Korea

- Total Annual Trade Volume :-> US\$1 billion, 2005.¹
- First Motorway in Pakistan M1 constructed by Daewoo Corporation, mid 90s
- Samsung, LG, Cell Phones & Electronics as well as Hyundai and Daewoo automobiles widely used
- KIPA-PSEB cooperation for Industry Development & Promotion
- KIPA-EGD: e-Government systems, Advisory and Consultancy Services on e-Procurement System
- KADO, KOICA, : Training, KIV, KOIL

Sources: South Korean Consul General Sukchul Chang while speaking at the vendors' convention of Dewan Farooque Motors on May 18, 2006 in Karachi.

Information from press and Ministry of IT, Government of Pakistan

www.sdnpk.org

- Sustainable Development Networking Programme of UN in Pakistan
- Probably the first formal cooperation in ICT after the internet emergence
- Among the pioneers in email and networking services in capital city in Islamabad since early 1990s.
- Trained hundreds of organizations and individuals in IT, Networking and computer usage

ICTs for Rural Development in Mountainous & Remote Areas of Northern Pakistan

- **ISP project started in late 1990s by IDRC**
- **Developed into a full-fledged ICT4D project during 2004**
- **Partners: COMSATS, KADO, AKRSP and Baltistan Health and Education Fund**
- **to promote use of ICTS for poverty alleviation and sustainable livelihood of locals through access and education about economic opportunities.**

Achievements...

Sustainable Livelihood and Community-Based Development by using ICT

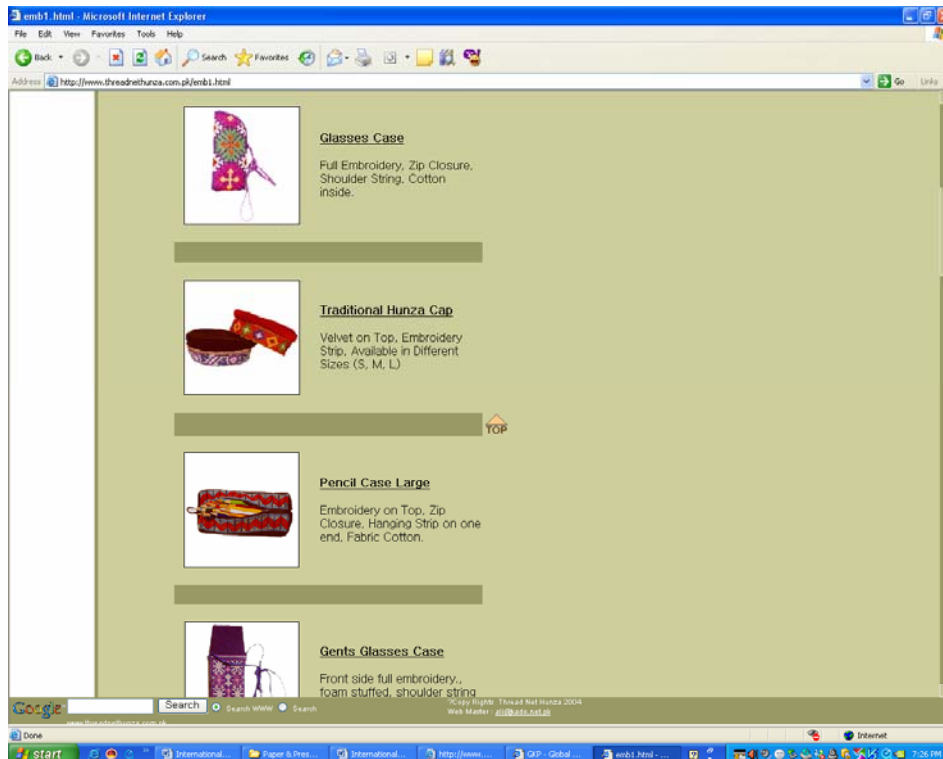

- **KADONET**: ISP, Awareness, Training
- 2 Schools are networked as community resource centers
- **E-Village** under implementation
- Fully functional **Tele-health** centre was established in Skardu
- Girls now have access to their school results immediately through the Internet
- Search for better education opportunities at national and international level

www.threadnethunza.com.pk

- transformed local crafts into global marketable products,
- generate work & income for about 2000 women producers
- KHDP: sale of Rs 3.48 million threadnet in 2004 (1US\$ = 60 PKR)

CRULP: www.crupl.org

Centre for Research in Urdu Language
Processing, NUCES, Lahore

- Successfully developed **Urdu lexicon, speech recognition system and fonts**
- Partial support by **PAN Localization project** which is a regional initiative to develop Local Language Computing Capacity in Asia.
- Now, the **PAN Localization project** is being coordinated for seven Asian languages from CRULP
- **Microsoft Localization R&D Grant** by Microsoft Pakistan, 2002-2003 utilized for extending the Nafees Naskh font for Aerabs (diacritics)

EGD-KIPA cooperation on GePS

- PPS Korea; the **world's best e-Procurement practice** declared by UN.
- **MoU signed in Feb 2005** between EGD & KIPA,
- May 2005 Korean experts developed the feasibility study for a **GePS** with the objectives:
 - To minimize corruption through transparency
 - Implement the best practices and ICT in Public Procurement to increase efficiency and waste of resources
 - Part of ICT in Good Governance initiatives
- **Financing & Technical proposals** by South Korea are **under consideration** of GoP

ESRA

EDUCATION SECTOR REFORM ASSISTANCE

- USAID project (2003-06) worth US\$ 72 million
- Objectives
 - to increase productivity, efficiency and effectiveness of the mgmt. system
 - an enabler to reduce the digital gap between the haves and have-nots.
 - teaching and learning tool, as part of a subject, and as a subject by itself.
- Partial Components (**ICT in Education**)
 - Developing a National Strategy incorporating ICTs in education system
 - Direct access to information and EMIS
 - School Improvement program

- **Political Commitment for ICT in Education:** Government stands committed for developing a comprehensive ICT policy for education integrated within National IT Policy, good governance and poverty reduction strategy
- **Reality:** “You are talking about putting computers in schools that don’t even have ceilings”

ESRA; Progress

- National ICT Strategy for Education finalized awaiting approval of the cabinet
- EMIS; major part in operation, Reliable and Timely data available
- More than 50 schools provided computers and connectivity around Islamabad , 2 resource centers with full multimedia capability developed.
- Curriculum Revision & Improvements.
- Computer Education being made compulsory during elementary school. Recommendations for change in curriculum presented to the PM

- **PAN funded project** based in Pakistan with more than 12 partners in 9 countries executing 10 projects for **Distance learning and networking Distance Learning Technology Engines for Research**
- Training workshops,
- Annual forums
- More than 10 research publications
- New **multi-media based tools and technologies** are nearing completion **for effective DLT**.
- Above all, it has brought many institutions in the region closer sharing there visions, problems and methodologies.

Pakistan Educational Research Network (PERN)

- Two parts:
 - Infrastructure (PERN)  Indigenous
 - Services
 - Inter-University Video Lecturing/Streaming
 - Digital Library
 - Collaboration between researchers 
- Using Technology to overcome
 - Faculty Shortage
 - Cost of Travel
 - Access to Remote Areas
- Expanded to all 59 Public Sector Universities
- IP-based Video Conferencing facilities at 19 universities for lectures from prestigious foreign institutions launched

- Programme initiated in February 2004, **INASP negotiated licenses and access** with the publishers
- Cost of resources related to GDP of Pakistan
 - Results : approx. **87% discount from list price**
- 250 participating institutions
- Over 30 databases
- **Over 20,000 full text journals** from the world's leading publishers
- **Over 1 million downloads during 2005**
- 150 million items available through British Library Document Delivery Service

UNDP: ICTD in Governance and Poverty Reduction

- Social Audit Systems

online: <http://ictd.undp.org/it4dev/gpm/presentations/day3/Asia/pakistan/pakistan.ppt>

ICT in Environment

- **Wetland Project** by UNDP with WWF Pakistan has produced a detailed GIS with cartographic maps, satellite images and GPS based field observations for better management of natural resources
- UNDP Projects:
 - **Fauna Information System** of Pakistan (FISP) : GIS containing all species of mammals and birds in Pakistan
 - **Eco-zoning** and land use GIS database in high altitude mountain ecosystems
 - **Land quality GIS** database for saline and waterlogged lands

Summing it up...

- We are improving in all areas:
 - Access, Education, Research & Development, Attractive multimedia based curricula, pedagogy, local content , Efficient production and business processes, delivery of public services, Reliability of data collected and disseminated in all sectors for better planning
- Faster because of the **International Cooperation and Collaboration in ICT**

For Developing Countries...

- **Goal:** Economic Prosperity, Development & Global Positioning in the Knowledge Economy
- **Scope: (Challenge)** Scarce resources for the growing population
- **Target Value: (Solution)** Knowledge Organizations & Workers
- **Core Competency:** ICT (Faster Access & Enhanced Productivity)
- **Tool:** Collaboration (International Cooperation)
- **Synergy:** Integrated Cross-Cutting Plans & Strategies
- **Timelines:** Shorter (sharing lessons learned globally)
- **Key to success:** Sustainability (Innovate & Adapt)
- **Primary Stakeholders:** Public, firms and direct beneficiaries

Thank you very much!
