

## **SESSION 6**

### **NGN AND BROADBAND: POLICY AND REGULATORY ISSUES**

#### **Regulatory issues arising from the migration to NGN**

***Abstract:*** The presentation will highlight a number of policy and regulatory issues that regulators have to face during the process of migration from the legacy public switched telephone network (“PSTN”) to the NGN. Issues such as interconnect, universal service obligation, numbering, emergency call services, open access, quality of service and network neutrality etc. will be covered. A short account about NGN development in Hong Kong will also be given.
