Department of Science and Technology,
Ministry of Information and Communications (MIC), Vietnam
Tel.: + 84 4 3 822.6580
Fax: + 84 4 3 943.7328
E-mail: dxbinh@mic.gov.vn

Mr. Binh works as the head of Standard Section in the Department of Science and Technology, Ministry of Information and Communications. He is in charge of standardization policies on ICT sector. His main job is to establish standardization plans, organize and review draft national standards and national technical regulations for approval. He also deals with international standardization issues and participates in some regional standardization forums, such as ASTAP (APT) and ITU-T meetings.

Before working for MIC, he was a researcher at Research Institute of Posts and Telecommunications (RIPT), Vietnam. He has experience in switching systems, mobile communications networks, charging and billing systems, signalling systems, network performance & QoS, network conformance testing, and also some other fields such as ICT security and database systems. He holds a master's degree in electronics and telecommunications.
