

Latin American Forum of Telecommunications Regulators

Regulatel

What is Regulatel

It is an efficient organization based on the existent national infrastructures that gather the telecommunication regulator's of Latin America. Regulatel allows to manage regulatory questions of telecommunications in the region within an analytical frame

Objetives

- a) To exchange information on the regulatory frame of each administration among the countries members of the Forum.**
- b) To promote the harmony of the telecommunications regulator's and to contribute to the integration of the region.**
- c) To identify and to defend the regional interests looking for a common position in international forums.**

Purpose

To foment the cooperation and coordination of efforts to promote the development of the telecommunications in Latin America

Organization

President: Orlando Jorge Mera INDOTEL, Dominican Rep.

Administration committee: INDOTEL, Dominican Rep.; ANATEL, Brazil; OSIPTEL, Peru; SITTEL Bolivia; CONATEL; Honduras; and ERSP Panama.

General Secretary: Gustavo Peña

Each member establishes his own support structure freely, at least a contact officer (correspondent) for each Regulator

Regulatel it is administrated by the Association of Regulators Regulatel AD, that it subordinated to the Forum

2003 to 2004

Realizations

- **Six Plenums**
- **Six meetings with Operators**
- **Two Summits with IRG (European Regulators)**

Meetings

Realizations

The regulators of electronic communications of Europe and Latin America have the responsibility of facilitating the existence of favorable conditions for the development of our countries and the electronic communications sector, especially within the framework of the Information Society.

They are aware of the importance of the development of telecommunications and the broad possibilities fostered by these technological advances that contribute to the individual and collective progress of our societies and the growth of our economies.

IRG and Regulatel reconfirmed their commitment to continue and intensify the co-operation where appropriate. Members of both organisations intend to participate in the organisation and implementation of joint activities for mutual exchange of information, experience and technical assistance as much as possible.

Realizations

- **Brasilia University, Course on Regulation, Sept 2003**
- **Telecom Reform in Latin America: Regulatory Issues and implications, work with IRG, CMT Spanish Government and LINER.NET, Sept 2003**

Studies

Realizations

- **Regional Indicators, Cofetel Mexico;**
- **Universal Service, Anatel, Brazil**
- **Interconnection, Osiptel, Peru**
