Ms. Blagica Stojkoska (Alumni of Youth Forum World 2003) just finished her study from university.

Ms. Blagica Stojkoska learnt about ITU-Telecom Youth Forum from a professor in her university. She realized that it would be a great opportunity for any student, especially for the ones in ICTs field, to know more about the field of their interest. Meanwhile, it was also a great challenge for her. In 2003, Ms. Blagica Stojkska was selected as one delegate to represent her country to participate in ITU-Telecom Youth Forum. There she met a lot of people with whom she still kept in touch. That particular activity trained her to become more confident in her work linked with various international projects.

“I just want to encourage all the students in the world who had the chance to apply for the Forum, because the gain is enormous.” said Ms. Blagica Stojkoska. ***“Welcome you all to join in the ICT Youth Network, which gives you the opportunity to have open debates related to ICTs in your countries.”***
