Age: 22

Sex: Female

Year of participation: Youth Forum Asia 2004

Country of origin: Viet Nam

Profession: Student

University: Posts and Telecommunications Institute of Technology

Field of study: Information Technology

Degree: BSc

Ms. Quach Thi Hai Van (Alumni of Youth Forum Asia 2004) is currently studying IT at her university in Viet Nam. She learnt about ITU-Telecom Youth Forum from an announcement of their Dean of Faculty. She was so excited and encouraged by that news since she believed it was a great chance not only to discover more about an international organization like ITU, but also to join in activities with the youth from other countries.

Ms. Quach Thi Hai Van's participation in ITU-Telecom Youth Forum in 2004 made her realize her lack of experience and the necessity to improve her knowledge in ICTs. At the same time, after returning from the Forum, she would like to share her experience of participation with her friends and colleagues. She also has the intention to organize an educational workshop in ICTs with other young people in order to contribute to this field for her country.
