To Ernesto Montes KN6NAT

Dear Ernesto,

In response to your coordination request I confirm IARU frequency coordination for **Pleiades-Squared**.

Coordinated frequency for up- and downlink 437.400 MHz, emission designator 125KX1DCN, EIRP 29.5 dBm.

Note that the maximum bandwidth is 125 kHz.

Planned launch date: 1 April 2023

Licensing administration: USA

Planned Height and Orbit: Low Earth Orbit

Earth Command station: KN6NAT.

IARU has coordinated frequencies in bands allocated to the amateur satellite service. All frequencies in the amateur satellite service are shared frequencies.

Please inform me about the final launch date, the orbital parameters and the API/A number as soon as that information becomes available.

Best wishes for a successful project.
