With reference to the above-mentioned subject, the Administration of Malaysia submits herewith the notices for the following satellite networks:

No.	Satellite Network	Relevant Provision of the ITU Radio Regulations ("RR")	Reference No.
1	MEASAT-58W-25	RR No. 9.6	MLA2025-78578

4	MEASAT-1C	RR No. 11.2	MLA2025-79461

2. The ITU form of notices for the above-mentioned filings has been submitted through the ITU e-submission website. The examination for completeness and correctness of the above said form was validated using Space Validation (version 10.0.4.91) software. As there were no fatal errors, the Administration of Malaysia would like to request the Radiocommunication Bureau ("**BR**") to consider the submission of the MEASAT-58W-25 (58W), MEASAT-89.5E-25 (89.5E) Coordination notice, MEASAT-91.5E-30B-E (91.5E) Part A notice and MEASAT-1C (91.5E) Notification notice as receivable.

3. At this stage, coordination between the MEASAT-1C (91.5E) satellite network (ref. i)) and the networks of the Administrations identified in **Annex 1** could not be successfully completed. Hence, the Administration of Malaysia would like to request the BR to examine the frequency assignments of the MEASAT-1C (91.5E) satellite network under No. 11.32A of the RR with respect to networks of the Administrations identified in **Annex 1**.

4. This Administration remains at your disposal should the BR requires further clarification.

Thank you.

Yours sincerely,
