API MOD

Bei unvollständigem Empfang Nachricht an:

☎: +49 61 31 18 31 93

En cas de réception défectueuse, informez s.v.p.:

Thomas Weber

E-Mail satsystems@BNetzA.DE

If not properly received, please call:

Subject: CLOUDCT API MOD-1 (ID 124545327)

Our reference: 223-3 CLOUDCT API MOD-1 20260324

This administration is submitting a modification to the CLOUDCT satellite network. The changes include the orbital information and number of satellites as well as an addition in beam DLS (E) for all three groups (additional service area ISR and a related specific associated earth station in ISR) and addition of a typical earth station in groups of beams UPLUHF and DOWNUHF. The GIMS file remains unchanged.

Thank you for your kind consideration in this matter.

Best regards

By direction of the President

Thomas Weber
