

Filing: KGS-1 (API)

Title: Additional Explanatory Material Regarding A.4.b.3.a, A.4.b.3.b, and A.4.b.3.c

The KGS-1 (API) includes five alternate NGSO constellation configurations. Each of the five constellation options in this filing reflects a different orbital inclination with the five options listed in the table below:

Constellation Configuration #	Inclination	Orbit ID Range	Number of Satellites	Orbit Altitude
1	53.5 deg	1	1	595 km
2	55.5 deg	2	1	595 km
3	56.5 deg	3	1	595 km
4	58.5 deg	4	1	595 km
5	60 deg	5	1	595 km

Amazon Kuiper Holding 1 LLC intends to deploy only a single spacecraft to one of the orbital configurations listed above.
