

Colin Langtry

Colin Langtry is the Counsellor for Radiocommunication Study Group 8 in the International Telecommunication Union (ITU). In this capacity, he provides secretariat and technical support for activities within the ITU addressing mobile, radiodetermination, amateur and related satellite services, including Working Party 8F "International Mobile Telecommunications-2000 and systems beyond IMT-2000".

His prior experience includes responsibility for the Text Editing and Publications Division of the ITU Radiocommunication Bureau and, before joining the ITU, planning for the introduction of radiocommunication services in the Australian government Spectrum Management Agency.
