ITU-T Workshop
"New Horizons for Security Standardization"

Abstract

Speaker:	**Dr. Marijke De Soete**
Session:	**2: Key areas of security standards focus**
Title of Presentation:	**ISO/IEC JTC 1 SC 27 perspective**

This presentation will provide an overview of the standardisation activities on IT security techniques by this committee. More in particular the talk will focus on standards which are of specific importance for securing e-business such as authentication mechanisms and digital signatures. Finally, it will give an insight on the new work topics the committee is involved with such as identity management, biometrics,…
