

ITU-T Workshop

“New Horizons for Security Standardization”

Abstract

Geneva, 3 –4 October 2005

Speaker: Francois Cosquer
Alcatel North America (Canada)

Session: **6: Key network security issues – some regional and consortia perspectives**

Title of Presentation: ATIS Security Focus Group

Recognizing network security as a critical issue facing the deployment of next generation networks and services, ATIS Technology and Operations (TOPS) Council established in 2003 a Network Security Focus Group. The mission of this group composed of security matter experts from ATIS member companies is, to identify, assess and recommend specific actions related to security standardization. The presentation will outline the development process, findings as well as the possible way forward.
