

ITU-T Workshop

“New Horizons for Security Standardization”

Abstract

Geneva, 3 –4 October 2005

Speaker: Meng-Chow Kang
Microsoft(Singapore)

Session: **6: Key network security issues – some regional and consortia perspectives**

Title of Presentation: **RAISS Forum - Achieving regional partnership and cooperation in information security standardization**

"Security standards are widely recognized as an important component in addressing today's information security challenges, in particular, in those areas relating to the use of information technology and the Internet. This paper highlights some of the challenges in security standards development and adoption in the Asia Pacific region, the formation of the Regional Asia Information Security Standards (RAISS) Forum, and the activities and progress to-date in addressing some of the key challenges and issues."
