Episode 25: STI Forum Side Event

LEVERAGING THE METAVERSE IN CITIES TO ACHIEVE THE SDGS

Co-organized by

Session Speaker

Ahmad Bhinder

Director of Policy Innovation
Digital Cooperation Organization (DCO)

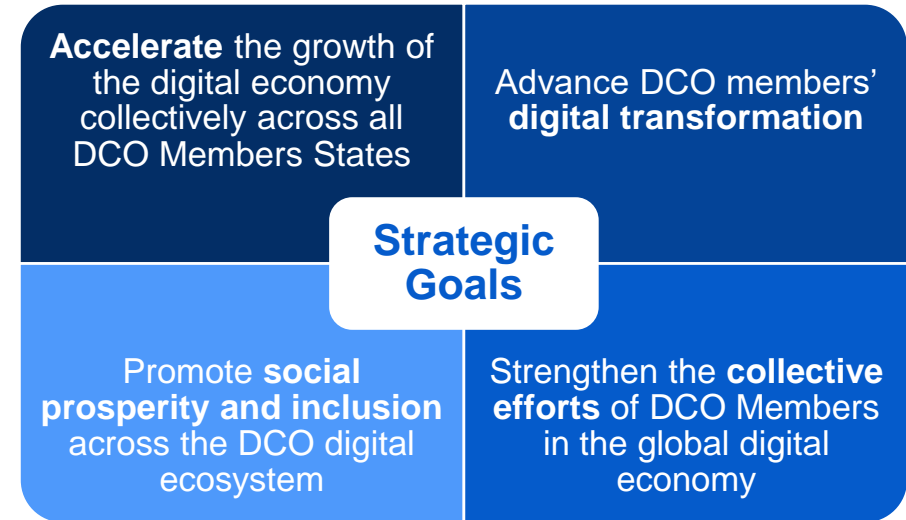

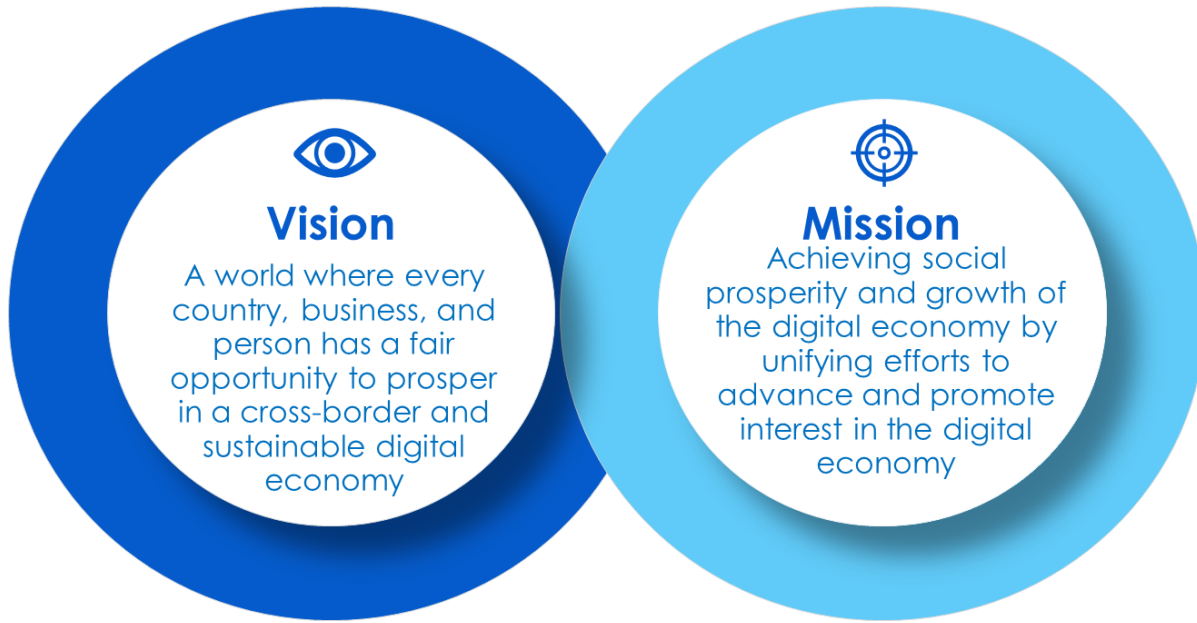

4 May 2023

13:15-14:45 EST (19:15-20:45 CEST)

About DCO

The DCO is a global Intergovernmental Organization founded in November 2020 that aims to enable digital prosperity for all by accelerating the inclusive and sustainable growth of the digital economy.

DCO Membership

DCO currently has 13 member states and a network of 22 observers

 600+ million people

 USD 2+ trillion GDP

 70% of young people

Member States

DCO Observers

With the urgent global challenges that we are facing, progress on sustainable development must accelerate

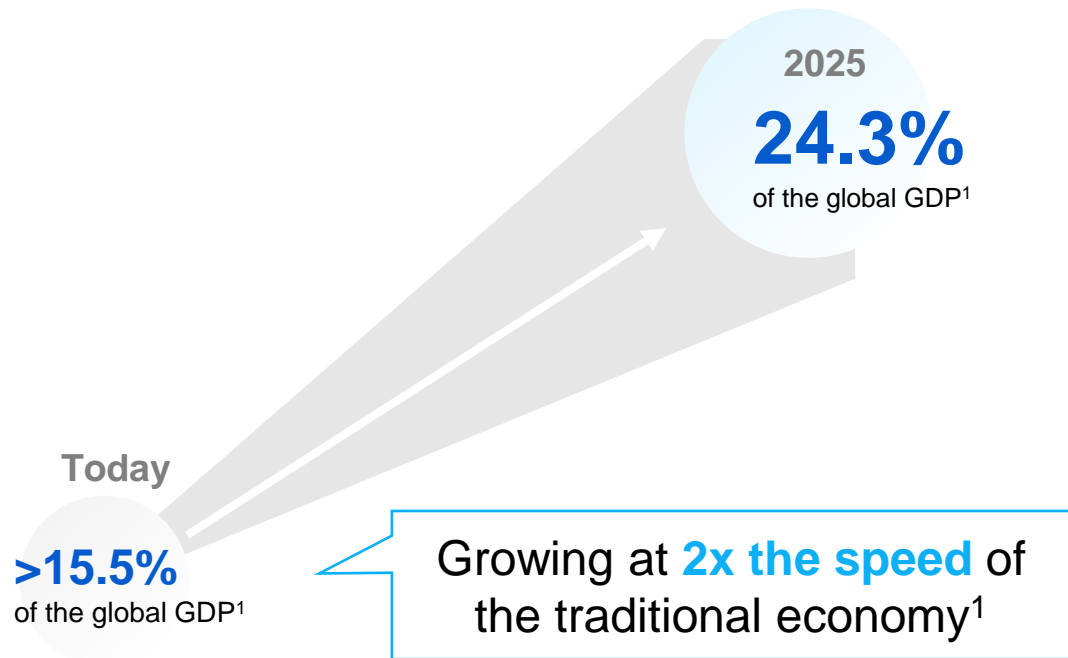

SDG Index Score Over Time, World Average¹

The **SDG Index Score** represents **performance against the SDG targets** based on an estimate of the current percentage of full achievement. The score aggregates country performance to provide an **indicator of global progress.**

Given the accelerating growth of the digital economy, it is critical that we ensure its sustainability...

Growing Significance of the Digital Economy

Growth Potential of the metaverse

By 2030, the metaverse could generate \$4 trillion to \$5 trillion across consumer and enterprise use cases.

Metaverse revenue estimates, \$ trillion

... and that we harness the power of digital technologies including the metaverse to accelerate progress on sustainable development

A preliminary framework for sustainable digital economy

... and the relevance of metaverse

Sustainable Cities and Communities

UN Environment Programme's vision of sustainable cities and communities

11 SUSTAINABLE CITIES AND COMMUNITIES

Sustainable cities and communities

Challenges

Solutions

UN environment
United Nations
Environmental Programme

The **RAPID** and often **UNPLANNED URBANIZATION** witnessed worldwide has led to **INCREASED PRESSURE ON THE ENVIRONMENT**

PROMOTE SOUND URBAN PLANNING, sustainable building, low-carbon transports, green spaces and sustainable lifestyles

Our cities account for up to **80% OF ENERGY CONSUMPTION** as well as **75% OF GLOBAL WASTE AND CARBON EMISSIONS**

INVEST IN RENEWABLE ENERGY, waste management, sustainable and green infrastructure

Due to the high concentration of people, infrastructure, housing and economic activities, **CITIES ARE PARTICULARLY VULNERABLE** to climate change and natural disasters

PROTECT CITIES - which are important social, cultural and economic centres - from environmental and climate threats

Cities can leverage metaverse progress SDGs

Indicative Use Cases

Healthcare Services and Innovation

Experiential Education

Community Engagement

Smart City Planning

Government Services

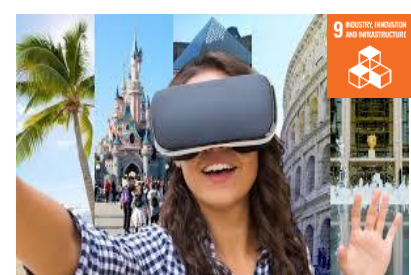

Financial Inclusion

Climate Action

Tourism and Culture

Industrial Metaverse

Efficient and Improved Workplace

Challenges and key policy implications of the metaverse

... and how to overcome them

 <p>Privacy</p>	 <p>Safety, Cybersecurity, and Wellbeing</p>	 <p>Sustainability</p>	 <p>Openness, Inclusivity, and Accessibility</p>
 <p>Interoperability</p>	 <p>Level Playing Field</p>	 <p>Identity</p>	 <p>Governance</p>

... and more

Multilateral and multistakeholder collaboration, human centric development of the metaverse and inclusive policymaking are key to tackling these challenges.
