Refuse to Ride

A high-angle photograph of a leopard resting on a large, weathered tree branch. The leopard is looking towards the camera with a direct gaze. Its fur is covered in a dense pattern of dark spots and rosettes. The surrounding environment includes green foliage and shadows cast by the tree.

Leopard Conservation Project

A leopard with a distinctive spotted coat is perched on a wooden plank inside a well. The leopard is looking directly at the camera with a serious expression. The well's interior is dark, with some green moss or algae visible on the wooden walls. A vertical wooden post is in the foreground, partially obscuring the leopard's face.
