Background

• 189 nations committed themselves to the UN Millennium Declaration in September 2000
• Objective of the declaration is to promote a comprehensive approach and a coordinated strategy in tackling many problems, such as poverty, hunger, ill-health, lack of education, gender inequality and environmental degradation
8 Goals, 18 targets and 48 indicators

Goal 1. Eradicate extreme poverty and hunger
- Halve, between 1990 and 2015, the proportion of people whose income is less than one dollar a day (from 27.9% to 14%)

Goal 2. Achieve universal primary education

Goal 3. Promote gender equality and empower women

Goal 4. Reduce child mortality

Goal 5. Improve maternal health

Goal 6. Combat HIV/AIDS, malaria and other diseases

Goal 7. Ensure environmental sustainability

Goal 8. Develop a global partnership for development

For more information see: http://millenniumindicators.un.org/unsd/mi/mi_goals.asp

Goal 8: Develop a global partnership for development

- Total of 8 targets (targets 12-18)
- Target 18 (ITU): In cooperation with the private sector, make available the benefits of new technologies, especially information and communications
- ITU tracks:
  - Telephone lines and cellular subscribers per 100 population
  - Personal computers per 100 population
  - Internet users per 100 population

Alternative target 18 indicators

- Household telephone (fixed and mobile) penetration
- Household PC penetration
- Household Internet penetration
- Mobile population coverage
- Community access indicators
MDG future

• Difficult to alter the indicators identified by the MDG
• Growing focus on ‘ICT for development’ and the need for concrete indicators to measure the impact of ICT on the MD goals as well as on social and economic development in general
• WSIS Thematic Meeting on Measuring the Information Society has identified the need to “measure impact and quantify the relevance and contribution of ICT towards improving development and achieving the MDGs”

A tale from Bangladesh...

GrameenPhone success story in Bangladesh

• Increased mobile penetration from 0.3% in 1997 to close to 2% in 2004
• Provides services to the poor and unconnected in more than 68’000 villages and access to telecom facilities to more than 60 million people in rural areas
• Average monthly salary of “village phone ladies”: BDT 5’000 per month (more than twice the average monthly per capita income)
• Created more than 100’000 jobs, including for dealers, agents, contractors and suppliers
• The company is one of Bangladesh’s largest private sector investors and largest taxpayers
Thank You
