THE ACCESS GAPE

Instituto Nacional das Comunicações de Moçambique

11/16/2010

We are still having the access gap between the urban and rural and remote area,

11/16/2010

Instituto Nacional das Comunicações de Moçambique

Villages like this in rural area still without access to ICT

16.11.2010

30

Instituto Nacional das Comunicações de Moçambique

Summary

- ❖ Growth of penetration from 0,53% to **29.08%** between 1999 and 2009;
- ❖ Telecommunications services growth in term of District coverage in fixed and mobile services from 68 to 126 districts covered between 2004 and 2009 (from 75.256 to para **4.223.911** subscriber in the same period);
- ❖ Govern actively liberalize the market and encourage the participation of the private sector;
- ❖ We have about 53 public and private company in the sector

16-11-2010

31

Major Opportunities

- Good will at very top of the political leadership
- Telecommunications Policy and Law in place
- Telecommunication Market full liberalized
- Good environment to implement new communications technologies
- ICT recognized as a cross-cutting issue and a development tool by all stakeholders

11/16/2010

**THANK YOU
MUITO OBRIGADO**
