Administrations of ITU Member States,
Regulators, Sector Members,
Academia in Asia and the Pacific

Subject: ITU Asia-Pacific Spectrum Management Workshop (30 March 2020) and Satellite Symposium (2-3 April 2020), Jakarta (Indonesia)

Dear Sir/Madam,

I am pleased to invite your organization to participate in the **“ITU Asia-Pacific Spectrum Management Workshop (30 March 2020) and Satellite Symposium (2-3 April 2020)”** to be held in Jakarta (Indonesia).

The events are kindly hosted by the Ministry of Communication and Informatics (MCI), Indonesia.

The workshop aims to bring together senior level staff from policy makers, regulators, industry and academia for discussions on key spectrum management issues including but not limited to:

- WRC-19: results and implications
- WRC-23: challenges ahead
- IMT2020 (5G): roadmaps
- Satellite communications: new trends and systems
- HAPS: roadmaps
- Future telecommunication networks

The draft program is attached (Annex A) for your information and further details including online registration, visa letter support, updated agendas of both the events etc. may be accessed through the event webpage at: <http://www.itu.int/go/ASMW20>.

The workshop is back to back with **6th Annual Asia-Pacific Spectrum Management Conference** organized by Forum Global from 31 March to 1 April 2020 at the same venue. Further details of this conference are available at www.spectrummanagement.asia.

Fellowship:

ITU, with support from its partners, is pleased to provide one partial fellowship (*covering meals and accommodation for the two ITU events*) for each eligible country, subject to availability of funds, with preference to those relevant applicants who would contribute to the assigned sessions of the workshop through country case studies. Applicants requesting fellowships are required to submit their fellowship request forms duly signed by their respective Administrations by no later than **29 February 2020**.

The fellowship request form is attached as Annex-B, which is also accessible at the event webpage. Member States are encouraged to consider gender balance and the inclusion of delegates with disabilities and with specific needs when proposing candidates for fellowships.

Additionally Forum Global is also offering support to selected candidates, to enable them to join their event on 31 March and 1 April. For further information, please contact Ms. Lula Howard (lula.howard@forum-global.com).

Registration:

The registration for the ITU workshop and symposium would be online at <http://www.itu.int/go/ASMW20>. The registration for Forum Global event can be done separately through their for-mentioned event website.

Mr. Aamir Riaz (aamir.riaz@itu.int) is at your disposal should you require further information.

I look forward to your active participation in the events.

Yours faithfully,

[Original signed]

Doreen Bogdan-Martin
Director

ITU Asia-Pacific Spectrum Management Workshop

Jakarta, Indonesia

30 March 2020

Draft Program

30 March 2020	
09:15-10:00	Opening <ol style="list-style-type: none">1. Opening Remarks<ul style="list-style-type: none">• MCI – Indonesia• APT2. Keynote Presentation – Mr Mario Maniewicz – Dir BR - ITU WRC – 19 Results and Implications3. Group Photo
10:00-10:30	Break
10:30-12:00	IMT-2020 (5G) as enabler of digital societies <p><i>The buzz in the industry on future steps in mobile technology — 5G — has seen a sharp increase, with attention now focused on enabling a seamlessly connected society in the 2020 timeframe and beyond that brings together people along with things, data, applications, transport systems and cities in a smart networked communications environment. In this context, this session will discuss the current trends in technology evolution and adoption for IMT-2020 (5G) as enabler of digital services.</i></p>
12:00-13:30	Break
13:30-15:15	Satellite communications: new trends and systems <p><i>Satellites play a crucial role to improve lives in today's digital economy. Nearly every industry relies upon satellite technology in some way — from agriculture, banking, transportation to urban planning etc. In case of emergencies, satellites help save lives and provide critical knowledge about how to protect the environment in a better way.</i></p> <p><i>Small satellites, high-throughput satellites, satellites with all-electric propulsion and low-Earth orbiting (LEO) satellites are among the game-changing innovations enabling a range of solutions from digital financial services to better health care to smarter cities.</i></p> <p><i>The session would look into some of the advancements in satellite connectivity and how their innovative service offerings is changing lives in remote area of the world.</i></p>

15:15- 15:45	Break
15:45- 16:30	Developing cohesive future connectivity networks <i>Designed as panel discussion, the session would discuss on how the benefits of both terrestrial and satellite communication service offerings, be seen as complimentary to develop future oriented connectivity.</i>
16:30	End of Workshop Summary - ITU
