Addis Ababa Action Plan – draft structure

TDAG-WG-SOP (4 October 2021)

Proposed conceptual structure

Proposed document structure

Addis Ababa Action Plan

1. Glossary of terms (RBM definitions according to UNDS)
2. Introduction
3. Structure of the Addis Ababa Action Plan
    - Thematic priorities and supporting components
    - Linkages
4. Implementation of Objectives and Outputs

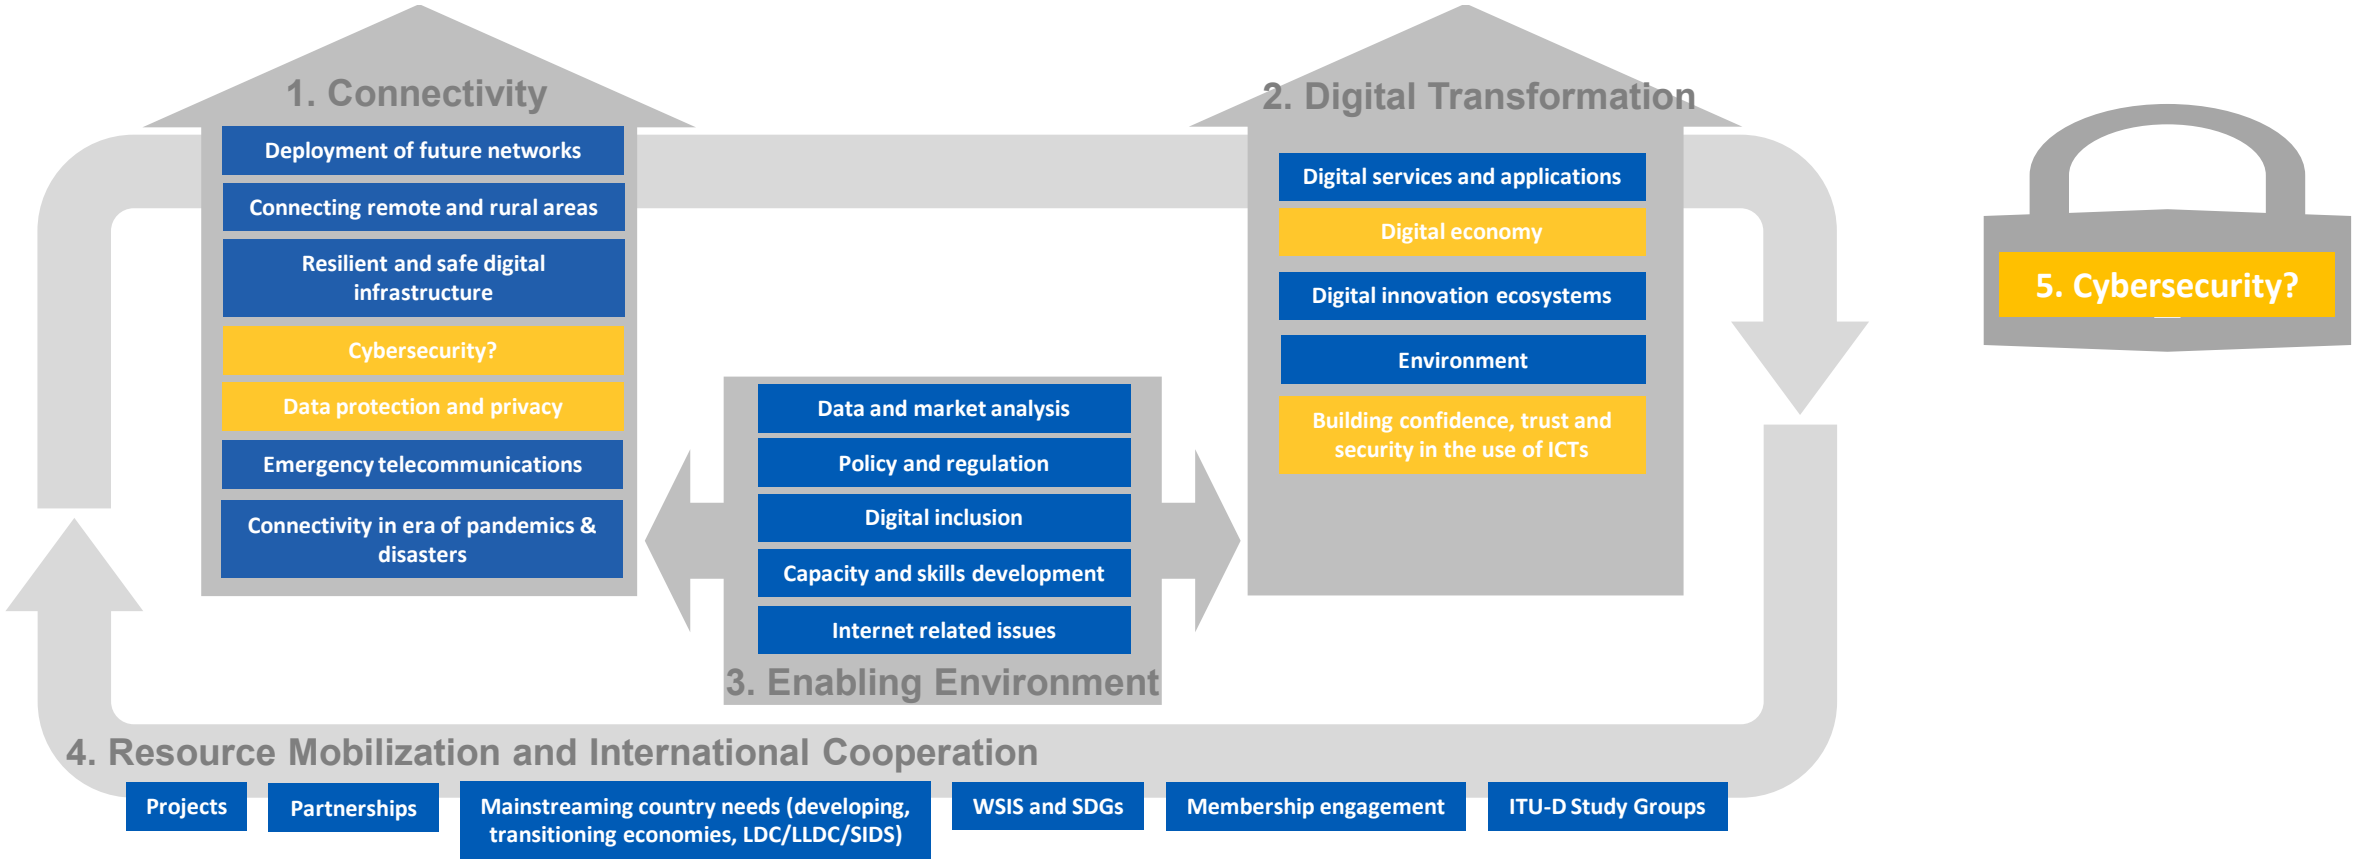
Regional Initiatives

Study Group Questions

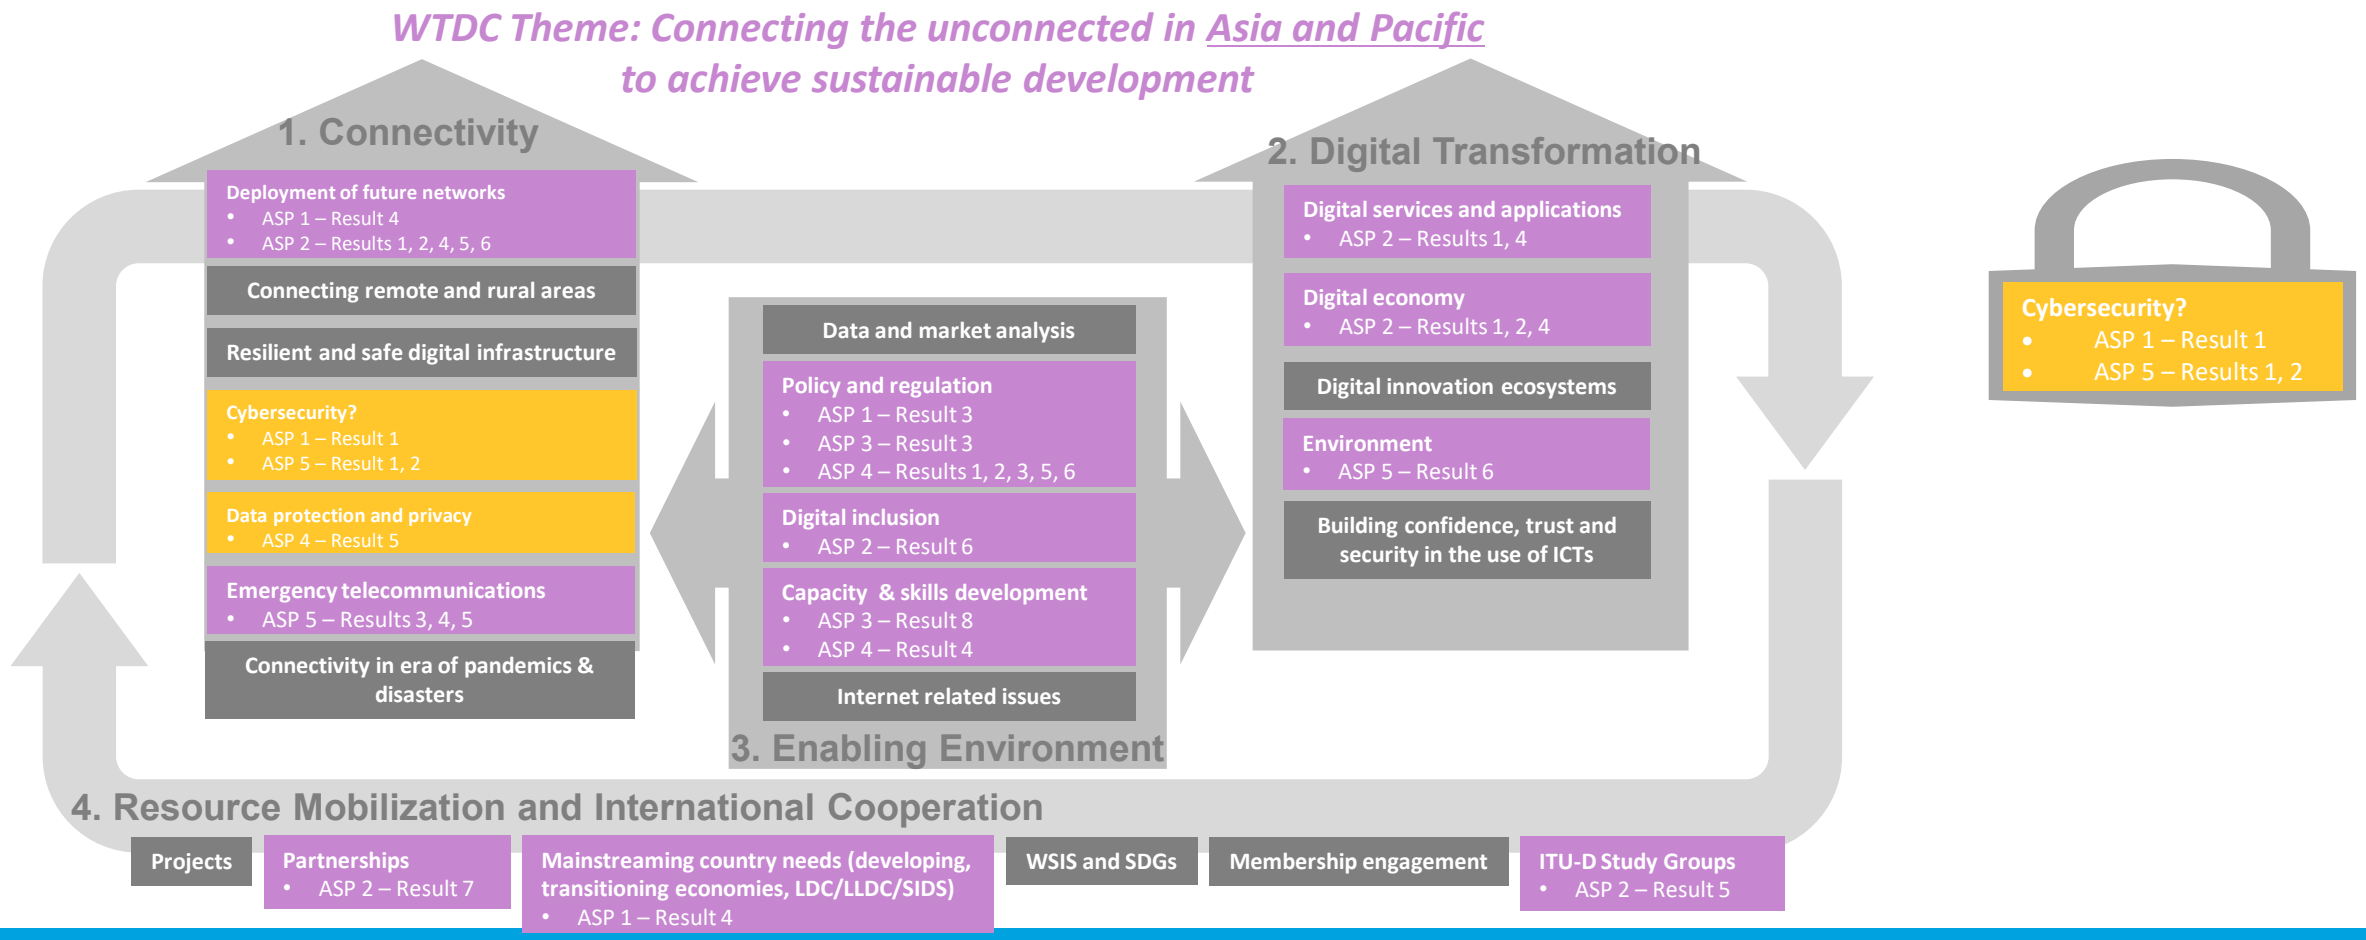
Resolutions and Recommendations

Mapping of new Thematic Priorities and possible supporting components

WTDC Theme: Connecting the unconnected to achieve sustainable development



Mapping of new Thematic Priorities and possible supporting components



ITU support to LDCs

Connectivity needs still greatest in LDCs

- 75% of people in LDCs remain offline
- Broadband penetration well below developing countries' average
- Rural areas in LDCs continue to be left behind
- Highlights need for ITU's support to track progress and challenges, and identify solutions and investment opportunities

Recognizing LDC connectivity as key priority

- Agenda 2030: SDG Target 9.c
- ITU Strategic Plan Targets 2.2 and 2.4
- Broadband Commission for Sustainable Development Targest 2025
- ITU Regional Initiatives
- LDC5
- Partner2Connect Digital Coalition

BDT Cybersecurity offering

Institutional mandate

- ITU Resolutions - PP 130, WTDC 45, 67, 69
- SG 2 / Question 3

Implementation framework

- Currently embedded in the Buenos Aires Action Plan Objective 2 - *Modern and secure telecommunication / ICT Infrastructure: Foster the development of infrastructure and services, including building confidence and security in the use of telecommunications/ICTs*

Service line

- Implementing Child Online Protection (COP) frameworks
- Global Cybersecurity Index (GCI) and related individual country assessments, recommendations and indicators
- Establishing cybersecurity response capabilities
- National cybersecurity governance, strategy and policy development

Thank you
