Regional Regulatory Associations

Subject: WSIS Action Line C6: Enabling Environment interactive session in the framework of the Digital Regulation Network (DRN) initiative, Tuesday, 28 May 2024

Dear Sir/Madam,

It is my pleasure to invite you to actively participate in the interactive session WSIS Action Line C6: Enabling Environment with the active participation of Regional Regulatory Associations (RAs) under the theme: "Collaboration for impact", organised by the International Telecommunication Union (ITU) in collaboration with the [WSIS+20 Forum High-Level Event](#). This event is organized in the framework of the [Digital Regulation Network \(DRN\)](#) Initiative. The session will take place on **Tuesday, 28 May 2024, 14:30–15:15 CEST/UTC+2** at [the International Conference Centre Geneva \(CICG\)](#) in Geneva, Switzerland.

The primary objective of this session is to discuss with the RAs the critical questions that ICT stakeholders encounter while embracing transformative technologies for greater impact. Some of the critical questions that we aim to address include the significance of collaboration in advancing the national and regional transformation agenda, defining success criteria, sharing examples and experiences of innovative collaborative regulatory projects, exploring how regulatory innovation can drive universal and meaningful connectivity and sustainable digital transformation, and predicting the future of regulation for the next generation.

Detailed information on the session agenda is described in the event agenda [here](#). Please note that all participants and delegates attending the WSIS+20 Forum High-Level Event must complete the registration form available [here](#). The session will also be supported by remote participation.

Should you have any inquiries or require additional information, please do not hesitate to contact us at: (treg@itu.int).

I look forward to your active participation and meaningful contribution in this session.

Yours faithfully,

[Original signed]
