Draft Co-Chairs' Report: Recommendations

Terms of Reference 2025	Recommendations / Conclusions
Identify indicators for potential inclusion in the IDI, based on the Candidate Indicators framework (see section 4 of the subgroup's Report of activities 2024).	New indicator: 5G coverage by population Candidate indicator: Fixed broadband coverage by household <i>All other indicator proposals as discussed but not adopted (subject to discussion).</i>
Based on the work achieved above, make a recommendation to EGTI/EGH regarding the revision of the IDI, in line with Resolution 131.	Based on the above, we propose make a recommendation to EGTI/EGH TO REVISE THE IDI , in line with Resolution 131.
After identifying candidate indicators, the subgroup may, time permitting, review additional methodological aspects of the IDI, such as normalization (goalposts) and aggregation.	<i>Subject to discussion.</i>

Next steps / AOB

- Subject to agreement, co-chairs will begin drafting report based on outline presented at this meeting.
- This draft report baseline will be shared in advance of the next meeting.
- Members are invited to make further proposals for inclusion in this cycle.
- Next meeting to be confirmed, aiming for early July (to avoid overlapping with ITU Council).
