Subject: Webinar Series on Connectivity Planning Platform

Dear Sir/Madam,

I am pleased to invite you to participate in the Webinar on Connectivity Planning Platform (CPP) titled "[From Data to Visualisation](#)," which will take place on **22 May 2026 from 12:00 to 13:00 CET**.

The Connectivity Planning Platform will be officially launched at the Global Symposium for Regulators ([GSR-26](#)). Accordingly, the webinar will mark the opening of a four-part virtual series under the theme "**Connectivity Planning Platform: Charting Pathways to Connectivity**", designed to strengthen institutional capacity for achieving universal, meaningful, and sustainable connectivity through data-driven planning approaches.

This first webinar will focus on how to transform data into clear and actionable visual insights, supporting more informed decision-making in national connectivity planning. It forms part of a progressive information journey that will guide participants through key dimensions of connectivity planning, including technology assessment, sustainability modelling, and the operationalization of strategies. It will also provide an opportunity to engage with CPP functionalities.

The session is tailored to enhance the ability to translate data into practical actions for broadband development and investment. It contributes directly to the implementation of the Baku Action Plan by promoting evidence-based policymaking, strengthening planning capabilities, and supporting the acceleration of connectivity deployment in underserved and unserved areas. All interested participants are kindly requested to register via the [link here](#).

Should you require any assistance or have questions, please do not hesitate to contact my team at cpsupport@itu.int. More information about CPP is available on [CPP webpage](#).

Yours faithfully,

A handwritten signature in blue ink, appearing to read 'Cosmas Luckyson Zavazava'.

Cosmas Luckyson Zavazava
Director
