Subject: Virtual Webinar Series on Connectivity Planning Platform - “Model Sustainability to Leave No One Behind”

Dear Sir/Madam,

I am pleased to invite you to participate in the virtual webinar on the Connectivity Planning Platform (CPP) titled “Model Sustainability to Leave No One Behind” which will take place on **21 August 2026 from 12:00 to 13:00 CET**.

Following the launch of the Connectivity Planning Platform at the Global Symposium for Regulators ([GSR-26](#)), this webinar is part of the series “*Connectivity Planning Platform: Charting Pathways to Connectivity*”, designed to strengthen institutional capacity for achieving universal, meaningful, and sustainable connectivity through data-driven planning approaches.

This virtual webinar will focus on how the CPP can be used to model sustainable connectivity scenarios by integrating infrastructure, demographic, and socio-economic data. It will explore how investment scenarios can be assessed to support evidence-based planning and evaluate the potential impact of different connectivity approaches. Emphasis will be placed on supporting inclusive and sustainable connectivity planning that helps ensure no one is left behind, especially in underserved and hard-to-reach areas. All interested participants are kindly requested to register via the link [here](#).

Should you require any assistance or have questions, please do not hesitate to contact my team at cppsupport@itu.int. The full virtual webinar series schedule and more information about CPP are available on [CPP webpage](#).

Yours faithfully,

(signed)

Cosmas Luckyson Zavazava
Director
