

RESOLUTION 83 (Rev. Baku, 2025)

**Special assistance and support to the Government of Libya
for rebuilding its telecommunication networks**

The World Telecommunication Development Conference (Baku, 2025),

recalling

- a)* Resolution 34 (Rev. Dubai, 2018) of the Plenipotentiary Conference, on assistance and support to countries in special need for rebuilding their telecommunication sector;
- b)* the noble principles, purposes and objectives enshrined in the Charter of the United Nations and in the Universal Declaration of Human Rights, as well as in the Declaration of Principles adopted by the World Summit on the Information Society;
- c)* the purposes of the Union as enshrined in Article 1 of the ITU Constitution,

considering

- a)* that reliable telecommunication systems are indispensable for promoting the socio-economic development of countries, in particular of countries in special need, which are those having suffered from domestic conflicts or war;
- b)* that the telecommunication infrastructure in Libya has been grievously affected by war;
- c)* that, under the present conditions, Libya will not be able to rebuild its war-damaged infrastructure and ensure effective operation of its telecommunication sector to meet its social and economic goals without the help of the international community, provided bilaterally or through international organizations;
- d)* that Libya requires sustained support to rebuild critical telecommunication/information and communication technology (ICT) infrastructure and ensure connectivity for all its citizens,

noting

- a) the efforts which have been and are being deployed by the Secretary-General and the Director of the Telecommunication Development Bureau (BDT) to provide assistance to countries in special need which have endured armed conflict and war;
- b) the technical assistance from BDT for the purpose of telecommunication/ICT development in Member States;
- c) the progress made in implementing previous phases of assistance to Libya, while recognizing the significant challenges that remain,

resolves

to continue special action, within the framework of ITU and within available resources, with the aim of providing assistance and support to the Government of Libya in rebuilding its telecommunication infrastructure, creating appropriate institutions, building human capacities, formulating legislation in the area of telecommunications, and developing a regulatory framework,

calls upon members

to offer all possible assistance and support to the Government of Libya, either bilaterally or through the special action of the Union referred to above,

invites the ITU Council

to allocate the necessary funds for the implementation of this resolution,

instructs the Director of the Telecommunication Development Bureau

- 1 to use the necessary funds to implement activities in favour of the Government of Libya, to develop specific projects and activities aimed at supporting digital skills development and capacity building in the field of telecommunications/ICTs;
- 2 to mobilize extrabudgetary resources to assist Libya;
- 3 to provide technical assistance on telecommunication/ICT regulatory reform, within the mandate and available resources of BDT,

requests the Secretary-General

- 1 to coordinate the activities carried out by the three ITU Sectors in accordance with *resolves* above, in order to ensure that the ITU action in favour of the Government of Libya is as effective as possible;
- 2 to report on the implementation of this resolution to the ITU Council and plenipotentiary conferences;
- 3 to bring to the attention of the next plenipotentiary conference the need to allocate the necessary resources for Libya.
