

Marko Merenheimo

Chief Technology Officer Pacific, MSc. CS, MSc. Telecommunication Engineering
Hexatronic

Marko Merenheimo works for Hexatronic New Zealand Limited as a Chief Technical Officer based in Wellington, NZ. He has a long experience in ICT systems and technologies and delivering connectivity services and solutions to customers. During the past nine years, he has been involved in several FTTH projects and deployments in the Pacific Islands, New Zealand, Europe and the USA. In New Zealand, Marko has also worked on designing connectivity solutions for Retirement Villages and Smart Cities projects, appreciating the importance of reliable internet connections providing access to learning, banking, medical and government services, helping people in their everyday life. Marko graduated from the University of Helsinki with an MSc. Computer Science and Telecommunication Engineering and worked after graduation for the Finnish Defence Forces, Nokia Networks, Nokia Enterprise Solutions and Nokia Multimedia. Before moving to New Zealand, He used to work for Hexatronic Group in Europe. Marko has a Smart City Certificate and a degree in Cognitive Pedagogy.
